As discussed, it will not be possible to deal with the proposed changes of use of Units 4 to 8 as part of the variation of conditions application, as this would necessitate a change to the approved description of development (which specifies retail units). However, if uses other than retail do commence within those units once the development is complete, it should be possible to submit individual applications for the change of use of each of the units. Any variation to the opening hours could also potentially be dealt with as part of the relevant application.

I would therefore propose to proceed with the Section 73 application in respect of the variation of conditions 2 and 13, relating to the amendments to the play area, bin store and bus layby, along with the creation of double units (units 2 to 3 and 6 to 7).

I would be grateful for your confirmation of whether you agree to this approach. If so, please could you provide an amended floor plan drawing with the references to alternative uses omitted so that we can proceed to validate the application.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
