| 2                        | <p>Erection of protective fencing:</p> <p>To retain throughout the duration of the development:</p>  | <p>Protective fencing is to be erected in accordance with 5.6 of AIA/MS report.</p> <p>The fencing <b>must</b> comply with the positions shown in the Tree Protection Plan. A scale copy of the Tree Protection Plan must be used as reference and fencing positions measured from the Plan using a scale rule and/or using the provided distances where shown.</p> <p>No works, no storage of materials, no access, or any ground disturbance is to take place within the Tree Protection Barrier Fencing other than works specified within the Arboricultural Method Statement. <b>Fenced areas are to be treated as Construction Exclusion Zones.</b></p> <p>Warning signs to be placed on all protective fencing. For large sections of fencing the signs must be placed at 20m intervals.</p> <p>Signs must be laminated and securely attached at all corners. Two signs are to be placed side by side; copies of which are attached within <b>Appendix A.</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                |                          |  |    |                       |    |            |    |          |    |     |    |     |     |     |     |                       |     |          |     |                  |     |     |     |     |     |                 |     |                |     |                  |     |     |     |     |     |          |     |     |     |          |     |         |     |                               |     |         |     |          |     |         |

| Phase | Requirements                                                                                                                                 | Method                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
