Trees and Groups to be retained and requiring protection at locations adjacent to the proposed works and activity routes

Tree protection fencing during construction. To be erected prior to any demolition or construction work begins on site and removed only when all external works are completed. Fencing to BS5837:2012, Figure 2. No works, excavation or storage of materials or any other activity to take place within protected areas and fencing to form the Construction Exclusion Zone (CEZ) unless works stated below are implemented.
Fencing can be moved to undertake localised works by hand but must be reinstated in position once completed.
Tree protection fencing to be removed immediately prior to construction and re-erected around the edge of the new/resurfaced paving upon completion of the work.
