To whom it may concern,

The enclosed documents follow up on my e-mail of 12th Oct 23 and Kate Fletcher's advice 16.10.23. I was unable to fill in the forms online but feel free to contact me online as before.

I have filled in the form. The tree doesn't have a T.P.O. but I learned some time ago that we're in a conservation area.

- I enclose:
- Planning form
 - Sketch of tree position with damage indicated on adjoining photo.
 - Photo showing size of tree and position relating to Pilling Street
 - Photo taken from side of house illustrating size and density of tree.
 - 2 photos illustrating gap between connecting walls.

I believe it is better to do the work on the tree in winter so I'd be grateful for an early reply and for any further advice.

Yours
Carmel Johnson.
