- Application boundary**
- 2.5m high galvanised weldmesh gates to site entrance
 - Maintenance vehicle parking on site
 - 2no. new 'barn structures' to house battery storage units and inverters
 - Battery storage units in light-grey
 - Inverter units in mid-grey
 - Sub-station and associated equipment in green
 - Battery and inverter units to be arranged in a linear formation to work with the topography of the site
 - 2.5m high galvanised weldmesh security perimeter fencing
 - Vegetated retaining walls to use Flex MSE system (or similar product), and include galvanised tubular handrails/ barriers
 - Compacted MOT Type 1 aggregate in a buff/sandstone colour to access road
 - Loose limestone / hardcore stone chippings in light grey to all other surfaces
 - Galvanised metal grate decking, steps, handrails and stillage
 - Overhead powerlines with 20m easement either side of centreline. Development and tree planting to avoid this easement
 - Existing trees to be retained
 - Existing hedgerows to be retained
 - Proposed native, species-rich hedgerow to the site perimeter to enclose the site
 - Individual and informal tree planting to line the hedgerows to Lower Jowkin Lane, Furbarn Road and Rake Lane
 - Native woodland to provide further visual screening and to help assimilate the proposals into the wider landscape pattern
 - Creation of a new species-rich habitat under the powerline and within the easement. A tussock grassland mix with low growing native mixed scrub planting.
 - New temporary vehicle access for construction vehicles - to be converted to landscape post construction.

CLIENT: **Shaw-Energi LTD**

PROJECT: **Clay Lane / Furbarn Road
57MW Battery Energy Storage Development**

DRAWING: **Illustrative Landscape Masterplan**

PROJECT NUMBER: **SHAM3000**

DRAWING NUMBER: **03A** CHECKED BY: **RM**

REVISION: **C** STATUS: **Final**

DATE: **July 2023** SCALE: **1:500 @ A1**
