

Typical detail through northern watercourse

Scale - 1:20 @A2

TO BE READ INLINE WITH ENGINEERING DRAWING  
70089657-WSP-SHP3-WAT-DR-D-0105 P03

Plant species:

- Carex acutiformis (Lesser Pond Sedge)
- Carex flacca (Blue Sedge)
- Iris pseudacorus (Yellow Flag Iris)
- Juncus effusus (Soft Rush)
- Lythrum salicaria (Purple Loosestrife)
- Phalaris arundinacea (Reed Canary Grass)

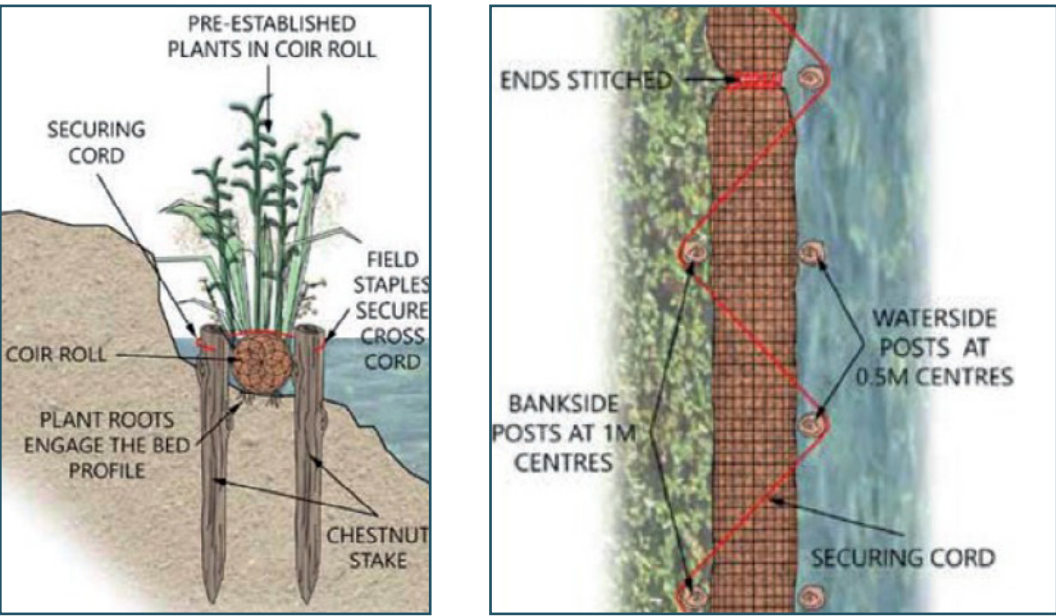

Plant notes:

- Planted at 10 plants per linear metre
- Planted with UK native plant species
- Grown outdoors in wet beds to aid establishment and create hardy plants

Example images of pre-planted coir rolls

Example fixing detail for pre-planted coir rolls

Indicative installation notes:

- Drive in the stakes at 0.5m centres at the front and 1m centres at the back.
- Lift coir roll into position.
- Lace ends together using 3mm fixing twine.
- Hold the roll down by criss-crossing fixing twine between posts. Fix twine to the post with a fencing staple.
- Backfill with suitable fill and consolidate or as specified.

Installation notes by British Flora
