

This architectural drawing shows the front elevation of a symmetrical two-story house. A vertical red dashed line runs through the center, indicating the axis of symmetry. The house features a gabled roof with a central chimney. The second floor has four windows, each composed of three vertical panes. The first floor has a central entrance with a small porch supported by two columns, flanked by large multi-paned windows. The drawing is a line art illustration with no shading.

This is a detailed architectural elevation drawing of a two-story house. The house features a gabled roof with a central chimney. A vertical red dashed line runs through the center of the house, indicating a symmetrical design. The second floor has four windows: a single window on the far left, a double window in the center-left, a double window in the center-right, and a double window on the far right. The first floor has a large double door with a small transom window above it, flanked by two single windows. To the left of the door is a large window, and to the right is a smaller window. A balcony with a railing is located above the double door. The drawing is a black and white line art, with the red dashed line used for symmetry.

This is a black and white architectural elevation drawing of a two-story house. The house features a steep gabled roof with a central chimney. A small porch with a railing is located on the left side of the ground floor. The facade includes a vertical element, possibly a door or window, and a small rectangular window on the upper floor. The house is set on a sloped ground, indicated by a diagonal line. The drawing uses simple lines and shading to represent the building's form and features.

This is a black and white architectural elevation drawing of a two-story house. The house features a gabled roof with a chimney on the left side. A central vertical pipe or downspout runs from the roofline down to the ground. On the left side, there is a small porch or entrance area with a door and a window. On the right side, there is a side staircase with a railing. The drawing includes horizontal dashed lines indicating level markers and a solid ground line at the bottom.
