

NOTES

The existing site, as at March 2017.
Some elements of the park restoration Masterplan had already been completed at this stage.

The site of the former Balderstone Community School playing fields has been unmanaged since the school closure. School sports pitches (for use only by the school) have not been marked out since the school closure.

The Masterplan has been developed and partly implemented since 2016. Implemented works and additional works completed to date include:

- Carved Benches
- Carved Sculptures
- Toddler Play Area
- Older Children's Play Area
- Skatepark
- Picnic Area: Including associated minor landscape works
- Land for Disposit: Transferred to St Mary's Primary School for use as playing fields. The school has installed a MUGA for all-season play.
- Outdoor gym: Demolition of a derelict building offered an opportunity for the installation of this additional facility for the local community.
