Re. Planning Approval for Re-placement of Castle Bungalow

Telephoned Planning Dept. Rochdale MBC.

Spoke to Rachael. Jennifer Hencastre, who dealt with original application, and Joseph Nanson who dealt with discharge of planning conditions are no longer working there.

Notified her that works had commenced in February 2015 prior to 3 year deadline — formation of access, demolition and removal of old bungalow (remaining brick/blockwork and concrete floor slab), excavation of drain to foundations and old septic tank and excavation of footings/strip foundations for new building.

She said it was unlikely that they would come back to us re. 3 years start condition but maybe take photographs (Ben has some on his phone) and keep any receipts.

Also she mentioned Building Control. Informed her that they had not, as yet, inspected.
