

All dimensions are to be checked on site prior to construction, immediately if any discrepancy is found, and if necessary, the contractor shall be notified. All dimensions are agreed and may be altered by changes in construction. Any discrepancies are to be reported to the architect for clarification. All materials and workmanship to be in accordance with the current British Standards and codes of practice. All proprietary products are to be fixed solely in accordance with the manufacturer's instructions. The Contractor is to refer to the specifications and recommendations. The drawings to be used in conjunction with the following: Building Regulations, Structural Regulations, Mechanical Regulations, Electrical Regulations and Specialist Regulations and specifications. All details are to be in accordance with the BSI Building Regulations and all Building Regulations standards for drawings and details. All drawings, plans and elevations, shall be made to the scale of 1:100 and shall be in accordance with the Building Regulations. All dimensions to be given in millimetres and rounded up. DO NOT SCALE FROM THE DRAWING
