

All materials and workmanship to be in accordance with the current British Standards and codes of practice.

This is a detailed architectural elevation drawing of a two-story building. The structure features a dark grey, flat roof with a small, dark rectangular vent or skylight near the center. The main body of the building is constructed from red brick, with a prominent horizontal course of bricks separating the first and second floors. On the left side, there is a single-story extension with a dark grey door and a small, square window above it. The central part of the facade has a large, multi-paned window on the second floor and a smaller, square window on the first floor. To the right, a tall, narrow chimney or vertical structure is visible, featuring a small, square window near the top. The entire drawing is rendered in a clean, stylized manner with black outlines and a brick pattern.
