Hatches to Kitchen And Store set out on FF MEP RCP 2583.  
Hatches to ceilings of Kitchen F6c and Store F6d are required to be metal faced doors having a 60 minute integrity and insulation rating.

(M20/555 & M20/597)  
Removal of redundant MEP surface mounted services. Localised repair to existing painted lath and plaster ceiling. Decorating Item.  
Plant on timber to be removed and plaster repaired.

(M20/598)  
Crack line corresponds to stone slab joint above. Assume plaster finish to soffit - allow to rake out and fill.

(M20/555 & M20/597)  
Removal of redundant MEP surface mounted services. Localised repair to existing painted plaster to underside of stone landing. Decorating Item.

New cornice to new corridor. F3h to match existing.  
Timber downstand beams supported on decorative corbels. Carefully brush back loose and flaking paint. Re-paint. See Decorations Schedule.  
Access hatch to service high level cistern located on centre line of middle urinal, and set between ceiling lights.

No need to remove existing lath and plaster prior to installation of counter batten and Gyproc FireLine (2no. 12.5mm layers) to underside of existing lath and plaster ceiling.

(M20/555 & M20/597)  
Removal of redundant MEP surface mounted services.

F3a: Carry out localised repairs and stabilisation of cornice as identified in report prepared by Ornate Interiors.

(M20/555 & M20/597)  
Removal of redundant MEP surface mounted services. Localised repair to existing painted lath and plaster.

Existing vertical clear finished timber riser retained in situ.

(M20/310)  
Removal of redundant vent grille to lath and plaster ceiling, allow for local patch repair.

(M20/598)  
Cracks across lath and plaster ceiling. Local repair.

New access hatch

Carefully take down existing sections of cornice and set aside for reinstatement in lift lobby F6h.  
Carefully cut clean, secure and stable line through existing lath and plaster ceiling and cornice to allow insertion of lift shaft walls.  
Salvaged section of cornice from lift shaft to new lift lobby F6h to match existing. Carry out associated localised making good of ceiling in new lath and plaster adjacent to cornice where lost as a result of lift installation. Carry out localised repairs of cornice as identified in report prepared by Ornate Interiors.  
(M20/555 & M20/597)  
F6h - Removal of redundant MEP surface mounted services. Localised repair to existing painted lath and plaster ceiling. Decorating Item.

01 3771  
New lift shaft

(M20/555 & M20/597)  
Removal of redundant MEP surface mounted services.

Where floor joists run perpendicular and a pattress cannot be installed. Ornate Plaster to secure existing cornice with extra long screws and washers into the existing ceiling timbers.

Existing cornices to be retained and protected in-situ. Carefully cut along line of existing cornice and take down unstable lath and plaster ceiling. Offer additional screw fixings to consolidate ceiling joists and counter joists. Reinstall new plasterboard ceiling to U/S ceiling joists.

New cornice to match existing profile to reinstate original room line following removal of lift shaft.

Central section of plaster loose. Allow for consolidation with washer fixings from below. Redecoration required following works.

(M20/555 & M20/597)  
F2b - Removal of redundant MEP surface mounted services. Localised repair to existing painted lath and plaster ceiling. Decorating Item.

F2a and F2b: Carry out localised repairs and stabilisation of cornice as identified in report prepared by Ornate Interiors.

See drawing 2587 for setting out of hatches.

(M20/598)  
Cracks across lath & plaster ceiling. Local repairs.
