

All dimensions are to be checked on site prior to construction, immediately if any discrepancy is found, and if necessary, the contractor shall be notified. All dimensions are agreed and may be altered by changes in construction. Any discrepancies are to be reported to the architect for verification. All materials and workmanship to be in accordance with the current British Standards and codes of practice. All proprietary products are to be used in accordance with the manufacturer's instructions. The Contractor is to refer to the manufacturer's product literature for the correct use of the materials and components. The drawings to be used in conjunction with the architect's instructions, specifications, and recommendations. Standard Drawings, Mechanical Drawings, Electrical Drawings and Specialist Drawings and specifications. All details are to be in accordance with the BSI Building Regulations and all Building Regulations and specifications for drawings and details. All drawings, plans and specifications, if not shown to be used in accordance with the Building Regulations, shall be used in accordance with the Building Regulations. DO NOT SCALE FROM THIS DRAWING
