GENERAL NOTES

- This drawing is to be read in conjunction with relevant architectural and engineering drawings. The Contractor shall ensure that all relevant conditions to be reported immediately to the engineer prior to commencement of works.
- This drawing is not intended to show details of ground conditions or ground contaminants. Each area of ground is to be fully explored and the results of the investigation to be reported to the Engineer. The Contractor shall ensure that the results of the investigation are investigated by the Contractor any areas of formation for said structures which do not accord with the anticipated conditions as described in the site investigation report are to be immediately reported to the Engineer. The Contractor shall ensure that the results of the investigation or within the ground should be further investigated by a suitable expert. Any earthworks shown indicate typical slopes for guidance only and should be investigated further by a suitable specialist expert.
- Where existing trees are shown to be retained they should be subject to a full Arboricultural inspection for safety. All trees are to be planted so as to ensure they are a minimum of 6 metres from structures and 3 metres from the proposed road. A foundation is to be provided to accommodate the proposed tree planting, where applicable.
