

A 3D architectural rendering of a two-story house. The house features a gabled roof with a brick chimney on the left side. The front facade has a covered porch with large windows and a glass door. The house is surrounded by a low brick wall. The rendering is in a light gray and white color scheme.

A detailed 3D architectural rendering of a two-story brick townhouse. The house features a flat roof with two prominent chimneys. The front facade includes a central entrance with a small porch and a set of double doors. There are several windows, some with dark frames. The house is surrounded by a low brick wall, and a portion of an adjacent building is visible to the left.

This architectural elevation drawing shows a two-story house. The roof is gabled with a brick chimney on the left side. The upper story has a large window with multiple panes and a smaller square window. The lower story features a brick base with a large window, a dark door, and a small square window. A brick wall section is visible on the right side of the house.

An architectural elevation drawing of a three-story brick building. The central section features a double door on the ground floor, flanked by a window. Above the door is a small balcony or overhang. The second floor has two windows, and the third floor has a single window. To the right, there is a chimney and a flat roof section. To the left, there is a smaller section with a window and a dark door. The building is surrounded by a fence and a sidewalk.

This architectural elevation drawing shows a two-story brick house with a gabled roof. Two chimneys are visible on the roofline. A single window is centered on the upper floor. A small porch or entrance is visible on the left side. A fence runs along the front of the property.

This is a detailed architectural elevation drawing of a brick building. The main structure features a large gabled roof with a decorative finial at the peak. The walls are constructed from brick, with a horizontal line indicating a change in level or a different brick pattern. To the left, there is a smaller, lower section of the building with a flat roof and a single window. A small, dark, rectangular feature, possibly a door or a small window, is visible on the main building's facade near the base of the gable. The entire building is set on a foundation represented by a cross-hatched pattern.

Scale bar 1:100

A horizontal scale bar with vertical tick marks at 0, 5, and 10 m. The bar is divided into segments by these tick marks. The segment from 0 to 5 m is further divided into four equal sub-segments by three small vertical tick marks. The segment from 5 to 10 m is a single continuous line.

This architectural floor plan shows a house with a central garden. The layout includes a Store at the top right, a Kitchen with a sink and stove, a Dining Room, a Living Room, a Family Room, and a Foyer with a staircase labeled 'UP'. The plan also shows a garden area and a small entrance area at the bottom left.

Architectural cross-section drawing of a house. The drawing shows the internal structure, including the roof, walls, and floor. Key dimensions are labeled:

- Roof peak height: 2118
- Main floor height: 2655
- Total height from ground level to peak: 3675
- Width of the main floor: 2700
- Height of the ground floor: 2250

The drawing also shows a staircase and a small window.
