

Hatched area indicates the current garage footprint

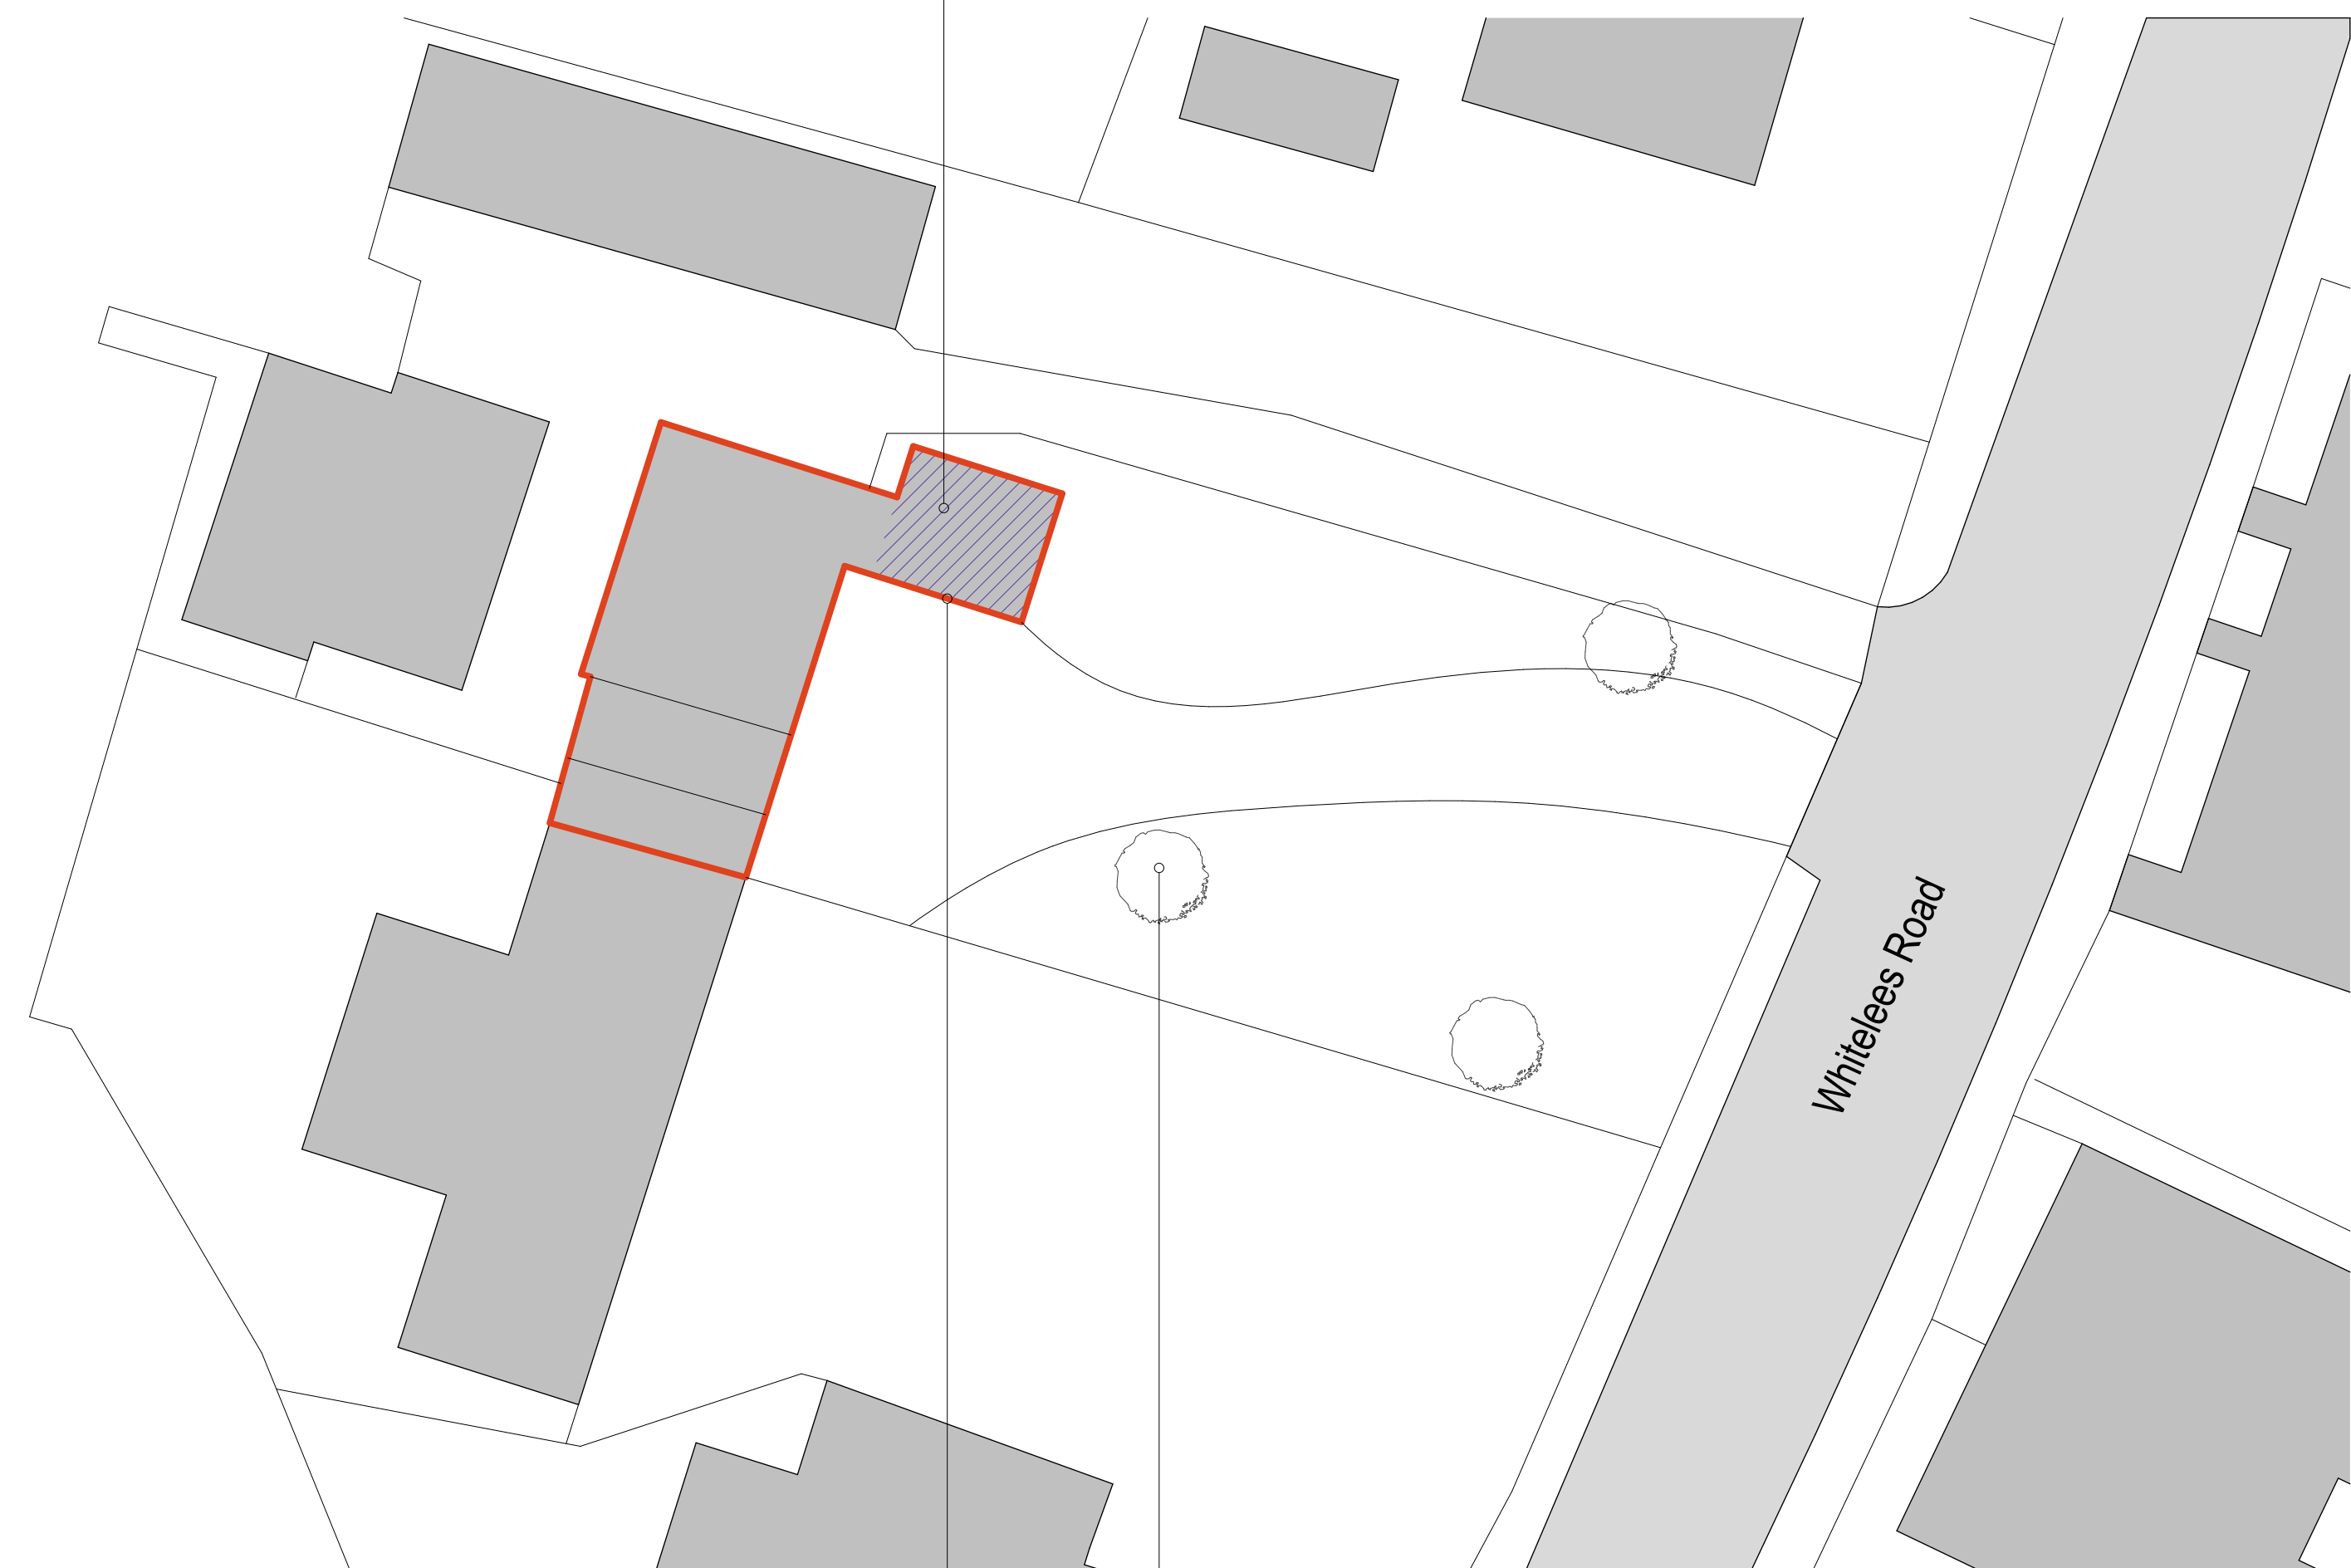

Existing Site Plan
1:200

Existing vehicular parking and pedestrian access unaltered

Hatched area indicates the area of the building included in the proposed works - no proposed changes to the building footprint

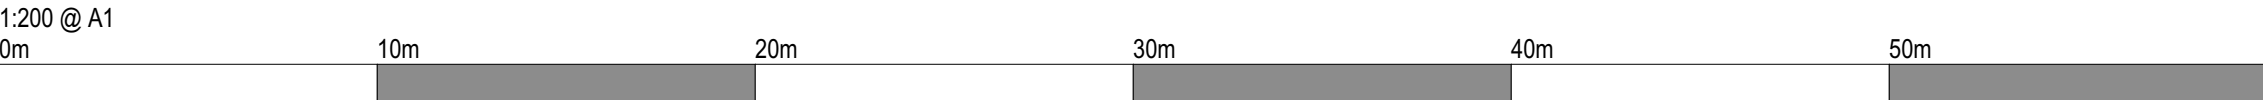

Proposed Site Plan
1:200

Existing trees unaltered and uneffected due to a notable stand off and no below ground works proposed.

The only proposed *external* changes are to this elevation (replacing the existing door, see block drawings). Due to the stand off from Whitelees road, the angle of this elevation in relation to this road, and the high boundary treatment along this road the proposed changes are not visible from the street

NOTES

- All proposed works are internal other than changing the external door (see block drawings). As such the changes proposed are not visible on the site plan. None the less, to communitie this a proposed and existing site plan have both been provided.
