

APPENDIX 1.2

STATEMENT OF EXPERTISE

Appendix 1.2: Statement on the Expertise and Qualifications of the Competent Experts Contributing to the Land at Stakehill, Rochdale Road ES as Required by Regulation 14 (1 and 2) of the 2017 EIA Regulations (as amended)

Chapter No.	Chapter Title	Expertise/Competence/Qualifications
1	Introduction	The ES has been coordinated and managed by Barton Willmore's, now Stantec Environmental Planning Team. The team is made up of qualified EIA Practitioners with extensive experience and relevant qualifications. Barton Willmore are registrants to the Institute of Environmental Management and Assessment EIA Quality Mark programme which involves annual assessment of Barton Willmore's, now Stantec EIA quality and standards.
2	EIA Methodology	
3	Site and Development	
4	Alternatives & Design Evolution	
5	Construction Methodology	
6	Landscape and Visual Effect	The chapter has been prepared by Barton Willmore, now Stantec Landscape Planning and Design, a registered practice of the UK Landscape Institute (membership number 897) and an Institute of Environmental Management and Assessment (IEMA) EIS Quality Mark Registrant.
7	Biodiversity	The chapter has been prepared by Liz Kenyon BSc (Hons) of Ascerta. Ascerta have been supporting developers, architects and planning consultants with quality advice on landscape, trees and ecology for more than 20 years.
8	Cultural Heritage	The chapter has been prepared by Headland Archaeology (UK), a Registered Organisation with the Chartered Institute for Archaeologists (CIfA), an audited status which confirms that its work is carried out in accordance with the highest standards of the profession. Headland Archaeology (UK), as part of the RSK Group, is recognised by the Institute of Historic Building Conservation (IHBC) under their 'Historic Environment Service Provider Recognition' scheme. This quality assurance standard acknowledges that RSK works to the conservation standards of the IHBC, the UK's lead body for built and historic environment practitioners and specialists. Headland Archaeology (UK) operates a quality management system to help ensure all projects are managed in a professional and transparent manner, which enables it to qualify for ISO 9001 (Quality Management), ISO 45001 (health and safety management) and ISO 14001 (environmental management). Sarah-Jayne Harris BSc BA MA ACIfA is a specialist technical consultant with over ten years of professional historic environment sector experience in the UK and is a full corporate member of CIfA. Sarah-Jayne has experience in undertaking baseline research, desk-based assessment and setting assessment in heritage consultancy for over five years. Through the management of multiple historic environment projects and the provision of supporting planning documentation to a wide variety of clients Sarah-Jayne has built an in-depth understanding of heritage legislation, policy and guidance in the UK.
9	Transport	This chapter has been prepared by Jan Wasilewski, a senior consultant in transport planning at SCP Transport Planning. He holds a Bachelor of Engineering degree in Ecology of Transportation from Poznan University of Technology, a Bachelor of Science honours degree in Transport Management and a Masters in Transport Planning & Engineering from Edinburgh Napier University. He is a member of the Chartered Institution of Highways and Transportation (MCIHT) and Transport Planning Society (MTPS). Jan has over 7 years' experience in the field of transport planning and engineering. He has experience in the preparation of ES having been involved in several major residential
