Mini Tree Report Date: 29th Sept 2020

Mr Fareed
2 Kemp Avenue
Rochdale
OL11 4LR

As requested, please see my mini tree report, as previously mentioned this offers no guarantees as trees are living organisms and can fail at any time. We would also like to point out no indemnity or insurance cover is offered. This report is in "my opinion" only and covers only the trees that have been inspected.

Tree in question subject to Tree Preservation Order 146 1996

Work done

Site visit, arboricultural inspection, photography and report.

Trees in question

T1 lime 14 mtr ,T2 Beech 18 mtr, T3 Sycamore 18 mtr, T4 Beech 18 mtr.

Problem

There are 4 large protected trees dominating the relatively small back garden. The trees have grown considerably and have not been maintained consequently there is now very little light into the garden and what was a lawn for the children to play on is now just dirt and moss.

Recommendation

I would concur with what Carey Robinson (previously RMBC) recommended some time ago, that a 20% crown thin on all 4 trees would help. This will allow more light into the garden and at the same time tidy up the trees and improve the amenity value to the wider community without affecting the health of the trees.

Regards

C.Ashton
