

FIRST AID RISK ASSESSMENT

The first aid risk assessment process is to assist in the determination of the appropriate first aid facilities and number of trained first aiders for a specific contract (or site). The assessment tool is based on the Health and Safety (First Aid) Regulations 1981, L74 and the Health and Safety at Work Act (1974).

The Site Manager must consult with staff of the area on all aspects of the provision of first aid.

Contract: Brownhill Community Learning School

Site: Brownhill Community Learning School
Sutherland Rd
Heywood
OL10 3PY

Date: 10th June 2024

Assessor(s): Brad Daniel
