

RESIDENTIAL DEVELOPMENT TRAVEL PLAN

A development of 57 dwellings at

**Broad Lane
Burnedge
Rochdale, OL16 4PU**

A project by

David Wilson Homes

Travel Plan, version 2, 7 December 2023

Prepared as part of a planning application for
residential development

A DEVELOPMENT OF 57 DWELLINGS AT BROAD LANE TRAVEL PLAN

A planning application for residential development of 57 dwellings has been submitted to Rochdale Borough Council. The site forms part of a large expansion to the southeast side of Rochdale known as Kingsway Business Park. The land with an approximate area of 100 hectares has the benefit of outline planning permission under the terms of application 14/00542/OUT. The mix of land-uses promoted as part of the development includes a small area for new housing. The site of 57 dwellings has an area of approximately 2.3 hectares.

National Planning Policy Framework (paragraph 113) states

113. All developments that will generate significant amounts of movement should be required to provide a travel plan, and the application should be supported by a transport statement or transport assessment so that the likely impacts of the proposal can be assessed.

The residential project creates a modest amount of traffic with the context of proposals for Kingsway Business Park. Additionally, the need to travel and the choice of mode of transport by residents of a household is changing. There are three key reasons:

- The production of fossil fuel cars is being phased out. The current target date for ending production of petrol and diesel cars is 2035. Driving using as a single occupant in a fossil fuel car will reduce over time. A guide to the sales of electric vehicles is pictured below (source www.zap-map.com).

- The COVID pandemic highlighted the option to work from home. Individuals can be contacted anywhere via email and phone and therefore businesses have adapted and working from home is now commonplace
- At the time of writing, the cost of fuel is around £1.60 per litre. The cost of filling up a family car is having an effect on travel choices within the household.

Unsustainable travel is considered to be usage of a petrol or diesel car by a single occupant. By definition, with the introduction of electric vehicles, travel as a single occupant in a diesel or petrol car is decreasing. The alternative travel choice, using an electric car, is increasing and this is considered to be sustainable travel. Therefore, the reasoning behind promoting Travel Plans has diminished substantially. Residents are free to travel as they choose but importantly travel will become more sustainable over time regardless of the implementation of a Travel Plan. However, better information on travel choices can help residents. Therefore, the applicant would provide a Travel Pack to all households. The **Travel Pack** includes information on walking, cycling, bus, tram and rail travel, ticketing and route planning with reference to websites and apps for smart phones. The proposed Travel Pack is attached to this document and is considered appropriate for a project of this scale.

- **background information on the developer, planning permission and the reasons for promoting sustainable travel**
- **reference to the health benefits of walking and cycling**
- **public transport maps of Rochdale plus selected timetables (e.g., route R9 & R10)**
- **Details of how to buy a ticket (Rosso)**
- **Cycling map for Rochdale plus route planning for cyclists**
- **Details of travel using the Metro line (Pink)**
- **a list of useful travel websites**

The use of monitoring, targets and reporting is not appropriate considering the inevitable change towards electric vehicles and sustainable travel. The Planning Authority has an option to apply a Travel Plan condition to the development. It is recommended that the condition focusses on the circulation of a Travel Pack to all households

Travel Sustainably Your Travel Pack

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

[WELCOME TO DAVID WILSON HOMES AT BURNEDGE](#)

This Travel Pack has been designed to assist new residents in promoting, as far as possible, a sustainable travel culture. Sustainability is at the heart of the government's agenda and planning policy. Sustainable living means that what we do and how we live today should not leave our children unable to achieve a similar quality of life in the future. Homeowners can do their bit by supporting local businesses and using public transport. Perhaps you can walk or cycle to your place of work, local shops and services. You will save money, reduce pollution and stay fit at the same time.

Have a look through your Travel Pack which includes:

- 1 [Bus map for Rochdale and Oldham plus timetables for routes R9 and R10](#)
- 2 [Route planning for bus journeys and how to buy a ticket](#)
- 3 [Cycling maps for Rochdale and Oldham and route planning](#)
- 4 [Details of rail travel at Rochdale and the Metro Line at Kingsway Business Park](#)
- 5 [Details of useful websites and Apps available for smart phone](#)

[WALKING](#)

Regular walking or cycling reduces the risks of coronary heart disease by up to 50% and a stroke by 66%. Walking and cycling on a regular basis are good for your heart and lungs. Regular walking can reduce the risk of dementia and Alzheimer's by up to 40% for people aged 65 and over. Research shows walking for 15 minutes three times a week is enough to cut the risk. As a guide a 30-minute walk at 4mph (15 minutes per mile) for a person of average weight would burn 150 calories. A 15-minute cycle covering a distance of 4 miles (16 mph) for a person of average weight would also burn 150 calories.

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

Also, you may not know that on busy roads passengers riding inside a car are exposed to more pollution than at the road side. Good ventilation of the car or the use of air conditioning doesn't significantly alter pollution levels.

- *In the UK people travel by car for 18% of all trips under 1 mile and for 61% of all trips between 1-2 miles.*
- *25% of Britain's car journeys are less than 2 miles, that's a 30 min walk or a 12 min bike ride!*
- *50% of car journeys are less than 5 miles, 17% of car journeys are travelling to and from work.*

Do a little more walking. Your new home is a 12-minute walk from all the shops and services on Oldham Road including St Mary's Church of England Primary School, convenience stores and pharmacy. Lowerplace Primary School is also located within a similar walking distance. Your new home is a 25-minute walk from Kirkholt Medical Practice. Avoid short car journeys and get out and about by foot.

Avoid the stress and rigmarole of travelling by car by supporting local businesses. A walking journey planner is available at www.google.co.uk/maps.

Residential Travel Pack

TRAVEL FOR GREATER MANCHESTER

Transport for Greater Manchester is the name that connects all public transport in the region. This includes areas such as Rochdale, Tameside, Oldham and Manchester city centre. Local councils and transport providers are seeking to create a smoother, safer, more efficient and user-friendly system. Refer to www.tfgm.com

Journey planning by bus is considerably easier and more convenient than it used to be. Contactless payments are the way forward so give it a try.

Also, you could try out the Get Me There Smart Card. Buy a range of tickets online and store them on a smart card. The Get Me There card is embedded with a microchip which electronically stores cash, season tickets and travel products as an alternative to paper tickets or cash.

Alternatively, you can use the Get Me There app and use your phone as your ticket.

Download this app to view your current balance or products, and to collect top-ups and products that you've bought (e.g., season or multi-day tickets) through your online account.

Residential Travel Pack

[PLAN YOUR BUS JOURNEY](#)

Bus services on New Broad Lane are operated by Rosso. Buses R9 and R10 combine to provide an orbital bus route through the suburban areas on the south side of Rochdale. The northbound bus to Rochdale is service R9 whilst the southbound bus service is R10.

Rosso promote the Transdev Go App for your smart phone. Have a look at www.transdevbus.co.uk. Set up an account and bus travel becomes easy and convenient. Have a look at the travel planner. The page invites the user to add details of the journey with “from” and “to”. For example, simply add Badger Close, Rochdale, and a chosen destination. Pick the day you wish to travel with a departure time and ‘submit’. The website will provide a selection of options for the exact location and destination that are listed within the database. Simply click your preference and ‘submit’. The website then gives walking times to a bus stop with timetable details of your bus. ‘Local maps’ are available to help you find your bus. The example above provides typical output information when travelling to Rochdale town centre. Bus services R9 and R10 are provided every hour. Buses are available from 7.30am to around 10.30pm. A slightly reduced service is provided at the weekend. Timetable information is attached to this Travel Pack. Ticket prices are available. For example, travel all day on Rosso buses within Greater Manchester using the GM Saver for £5. Under 19s pay a reduced fare of £3.50. Give it a try.

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

RAIL TRAVEL

If you are travelling longer distances then rail travel is an option.

Your home at Broad Lane is approximately 30–35-minute walk from Rochdale station. Cycling to the railway station is an option. Get the free National Rail app for your smart phone for journey planning.

Also, get the train operator app, Northern Railway, for timetables, tickets, live status updates, alerts and notifications plus personalise your information and save favourite journeys. Reduce your carbon footprint. Travel sustainably.

TRAM TRAVEL

Consider using the tram for a journey to Oldham. The Pink Line is accessible at Kingsway Business Park station which is a 25–30-minute walk. You can use the Get Me There app for your smart phone for tickets and timetables. All you need to know is provided at www.tfgm.com. Remember you cannot pay for a journey on the tram. You must have a ticket before you get on. You can travel by tram with contactless cards and devices, using the smart readers on stops to pay for journeys as you go. Touch-in before boarding the tram and touch-out at your destination stop.

CAR SHARING

Remember car sharing is highly plausible. Get to know your neighbours and maybe there is an opportunity to share car journeys to regularly visited destinations such as Rochdale or Oldham. Do your bit and:

- support a shift to new technologies and fuels
- promote lower carbon choices: and
- make use of market mechanisms to encourage a shift to lower carbon transport

And car sharing is just one way to lower your carbon footprint

- save money on fuel and parking costs every time you share a journey
- enjoy a more sociable and less stressful way of travelling
- reduce your carbon footprint and help to cut congestion and pollution
- reduce the wear and tear and weekly mileage on your car

Take some of the stress out of travelling and save money by sharing a car. Perhaps try <https://liftshare.com> and enter the details of your journey.

ELECTRIC CARS

The future of personal convenient travel is the electric car. Technology is improving, vehicle range is increasing and charging points are appearing across the country. There is the philosophy of the “need to start somewhere” and there are

numerous charging points across the Greater Manchester (refer to www.zap-map.com).

Be part of it and abandon fossil fuels and embrace electric cars.

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

CYCLING IN ROCHDALE AND OLDHAM

Cycling is one of the best ways to get around town with versatility and a reasonable speed. There is no doubt that that cycling is good for the heart and helps burn off a few calories.

There is a lot more to learn by referring to www.tfgm.com and search for cycling. Advice and information on cycle safety, security, cycle shops and training are available. Links provide details of cycling maps, journeys planners, cycling clubs, signed cycle routes, cycle parking and much more. Have a look at the walking and cycling guide attached to this Travel Pack.

And you haven't used your bike for a while? Buy a new bike or get the old one fixed and roadworthy at your local bike shop. Try out Halfords located on Oldham Road, Rochdale OL11 1DZ. Have a look at www.halfords.com. Of course, there are busy roads in Rochdale but please consider the benefits. Note that National Cycle Route 66 passes through Rochdale. Cycling maps are attached to this Travel Pack. Get fitter, cycle to work or just explore on two wheels. Remember you can take your bicycle on the train free of charge and you can take a folding bicycle free of charge on the bus.

Take a moment to explore the information available and get cycling.

Find out more about cycling in your area by referring to the www.tfgm.com, www.sustrans.org.uk or www.cyclestreets.net.

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

PLAN YOUR BICYCLE JOURNEY

A journey planner is provided at www.cyclestreets.net. Simply connect to this website and the opening page will display a map of Britain with an invitation to add a “starting from” location. The website will search options that match your location and then invite you to add a destination. Choices of cycling speed can be selected and then click on “plan this journey”.

Starting from:

**Broad Lane
Balderstone** change

Going to:

Moss Lane, Heyside
change

Speed

Unhurried 10.0mph (16km/h) ▾

Plan this journey »

This service is free (no need for a log-in).

The output is self-explanatory and provides details of the distance, journey time and even provides a profile of the route showing the gradients you will encounter on your way. This example shows the ‘balanced’ and ‘fastest’ route from your home to the industrial areas on the north side of Oldham. The chosen route has a distance of 4¼ miles and would take 39 minutes using an unhurried cruising speed of 10mph. The cyclist would use 171kcal on the route. By choosing cycling, the production of 1.29kg of CO₂ has been avoided.

Take a moment and look at the cycle maps and consider cycling.

Residential Travel Pack

A guide to travelling sustainably, by walking, cycling and by using public transport at Broad Lane Burnedge, Rochdale, OL16 4PU

USEFUL ORGANISATIONS

Rochdale Council provided planning permission for the development under the terms of application 2022/XX/123. Condition 9 therein referred to the need for a Travel Pack.

The Highway Authority of Rochdale Borough Council is responsible for managing the road network, highway safety and infrastructure improvements. Information can be viewed at www.rochdale.gov.uk and search for your topic of interest.

Public transport For all the information you need on public transport refer to Transport for Greater Manchester (www.tfgm.com). The website provides journey planning using rail, bus and tram services across the region. Search for public transport and follow links for home to school transport, timetables, route maps and journey planning. Most buses are operated commercially by companies such as Stagecoach, Rosso and Diamond.

National Bus Pass. Check if you are eligible for a free National Bus Pass by referring to <https://www.gov.uk/state-pension-age>. This Government website provides details of when you reach the State Pension Age and when you are entitled to a free bus pass. Also refer to <http://www.rochdale.gov.uk> and search for 'concessionary travel'.

Cycling - Information on cycle routes and parking, training schemes and other local initiatives can be viewed at www.tfgm.com. Search for cycling where you can download cycle maps or plan your journey. Alternatively plan your journey by bicycle at www.cyclestreets.net. For all matters cycling visit www.sustrans.org.uk.

Local buses Travel information for New Broad Lane www.transdevbus.co.uk

National Rail For rail travel and timetables across Britain www.nationalrail.co.uk

Have a look at Northern Rail services, www.northernrailway.co.uk

Why cycle?

- To save money**
Cycling costs 85% less than driving.
- To save time**
For journeys from 3 to 5 km cycling is often the quickest form of transport.
- For health and fitness**
Cycling can improve and maintain physical and emotional health.
- For enjoyment**
Cycling is an easy and enjoyable activity with friends and family.
- For the environment**
Cycling produces virtually no atmospheric pollution or noise.

Helping more people cycle

Cycle training and practical support

Whatever your level, we can help you get the best from riding your bike. We offer a range of courses, led by expert instructors, to get you up-to-speed whether that be learning to ride, building skills and confidence, looking after your bike or becoming a ride leader.

Visit the website tfgm.com/cycling to find out more about cycle training, lots of useful information and practical support, plus details of cycle parking facilities around Greater Manchester.
