

Thomas Boyd

Personal Profile

Previous experience in Health and Safety:

I have extensive experience working in diverse environments, ranging from large warehouses to high-risk foundries. This has equipped me with the ability to adapt to various settings and effectively apply health and safety protocols across a wide range of sectors. As a health and safety consultant, I have developed construction phase plans, conducted risk assessments, and formulated comprehensive health and safety policies as well as conducting Site Audits.

Qualifications:

NEBOSH General National Certificate

ISOH Affiliate status (Working Towards Technical Membership)

CSCS Card

Role:

Thomas joined Safety Services Direct Ltd in June 2024 from a similar Consultancy Role. His role is to assist our diverse client base with the provision of Competent safety advice and support including the preparation of documents for Contractor Accreditation schemes, Health and Safety Policy Manuals, Risk Assessments and Method Statements as well as conducting Site Audits. Thomas will also be offering practical ongoing advice and support to clients when required, assisting them to meet their ongoing legal obligations in relation to all matters Health and Safety.
