Rochdale Council

25/00044/FUL | Installation of a playzone facility on existing MUGA pitch together with associated extension, ball stop fencing and flood lighting | Stoneyfield Park Boundary Street Rochdale OL11 1QU

The plans indicate that a single semi-mature Cherry tree of reasonable quality adjacent to the existing MUGA may be affected by the works, although the Ecology reports show this tree as being retained. The tree is not worthy of TPO designation but its retention is desirable. To this end, I would advise that a Plan is prepared showing how this tree is to be protected during the course of any works. This Plan could be required by Condition. If for any reason it is considered not possible to successfully retain this tree, replanting should be required on a 2-for-1 basis.

There would appear to be space within the site to accommodate new planting.

Yours

Derek Richardson
