Subject: App 24-01210-WTTPO - Salkeld Street Rochdale - Arbor Response

:CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Rochdale Council

24/01210/WTTPO | Proposed works to trees subject to Tree Preservation Order 028 as follows:- One Ash Tree identified as T20 - Remove deadwood, general maintenance/exempt works included for completeness Two Ash Trees identified as T11 and T18 - Fell to ground as the trees are in poor health and decline. | 28 Salkeld Street Rochdale OL11 1PS

I have no objections to the above planning application. Unfortunately Ash die-back disease is endemic in the area and given the location of these trees close to the highway and to residential property the works are justified in the interests of public safety, avoidance of harm to property and responsible tree management. The trees will continue to decline and while in decline there is a risk of limb failure and possibly of main stem failure.

Works must be carried out by a suitably qualified and insured arborist.

I would advise replacement planting with smaller trees, for example Silver Birch.

Yours

Derek Richardson
