LIT-BRO-PBK-F

PVD Stainless Satin Black

PBK

Our 316 Marine Grade Satin Stainless Steel with a PVD Black coating applied to it to give a distinctive matt finish providing excellent aesthetics for both contemporary and traditional styles.

Our PVD Stainless Satin Black finish has been successfully Salt Spray Tested to 1,000 hours as per ASTM B117-2019.

What is PVD Coating?

PVD stands for Physical Vapour Deposition. Also known as 'thin-film' coating, PVD coating is a process in which the hardware is placed inside a vacuum chamber and given a negative charge, a solid material (the coating) is then vapourised in this vacuum and given a positive charge forcing it to deposit atom by atom onto the surface of the hardware.

The coating is not simply layers of metal, the material is deposited atom by atom providing an ultra-thin, highly accurate and extremely strong coating. It also provides a much more uniform appearance and finish than traditional coating methods.

As the coating is very thin it enables the texture of the underlying metal to still be visible and felt. So for a satin finished product we use a base material of satin stainless steel and apply the PVD coating to it.

The Benefits of PVD Coating

- The PVD process increases the longevity and durability of the hardware, making it more resistant to wear, weather and corrosion.
- The PVD coating does not fade, discolour or tarnish and isn't affected as much by UV rays.
- The PVD coating process is more sustainable and environmentally friendly than traditional coating methods. No harmful gases or other substances are released and there is no waste during the coating process.
- The PVD process does not affect the recycling value of the stainless steel base material.

The benefits of using 316 Marine Grade Stainless Steel as the base material for PVD Coating

Where corrosion levels are high, such as coastal environments and in acidic timber, commonly used metals such as zinc and 304 stainless steel are not able to stand up to the elements and corrosion can quickly start.

However there are many corrosive elements in the atmosphere wherever your doors and windows are, situated on the coast or in a city.

316 Marine Grade Stainless Steel is stronger and has higher levels of corrosion resistance than 304 Stainless Steel. That is why we use 316 Marine Grade Stainless Steel as standard on all BLU™ products.

So wherever your doors and windows are installed, by fitting BLU™ hardware you can have peace of mind your hardware will last at least as long as your doors and windows.

Contemporary Suited Hardware for
Non- Lever Operated Doors

This Suited Range creates a very modern look with either our Round or Rectangular 'T' Bar Pull Handles.

Featured here:

- 1. HAB2 - Inline Round 'T' Bar Pull Handle
- 2. KM045 - Oval Escutcheon - Euro
- 3. HQ4 - Butt Hinge
- 4. LP400 - Sleeved Letter Plate
- 5. HAB15 - Inline Rectangular 'T' Bar Pull Handle

HAB2-1200-UF-PBK
Inline Round 'T' Bar Pull Handle
1200mm, Universal Fix

HAB15-1200-UF-PBK
Inline Rectangular 'T' Bar Pull Handle
1200mm, Universal Fix

KM045
Oval Escutcheon - Euro

KM078
Mitre Lever Door Handle on Backplate
(Dual Sprung)

SST87 Suited Contemporary Window Handle
available

Contemporary Suited Hardware for
Lever Operated Doors

For those who want modern styling but need a lever handle to operate their multipoint lock - the KM078 with its clean, crisp lines is perfect.

Featured here:

- 1. KM078 - Mitre Lever Door Handle on Backplate
- 2. HQ4 - Butt Hinge
- 3. LP400 - Sleeved Letter Plate

REG090

Regent Lever Door Handle on Backplate

REG020 Suited Regent Window Handle available

Classic Suited Hardware for Traditional Lever Operated Doors

This Suited Range includes our Regent Lever Door Handle and features elegant styling to create that classic look. Suitable for lever operated multipoint locks.

- Featured here:
- 1. DKB200 - Ring Door Knocker
 - 2. REG090 - Regent Lever Door Handle on Backplate
 - 3. HQ4 - Butt Hinge
 - 4. LP400 - Sleeved Letter Plate

TBH020 Suited Opera Window Handle available

Classic Suited Hardware for Traditional Lever Operated Doors

This Suited Range includes our Opera Lever Door Handle and features a classic bulb-end design.

Suitable for lever operated multipoint locks.

- Featured here:
- 1. DKB200 - Ring Door Knocker
 - 2. TBH100 - Opera Lever Door Handle on Round Rose
 - 3. KM055 - Round Escutcheon - Euro
 - 4. HQ4 - Butt Hinge
 - 5. LP400 - Sleeved Letter Plate

TBH100

Opera Lever Door Handle on Round Rose

KM055

Round Escutcheon - Euro

DKB200
Ring Door Knocker

KM388
Centre Door Knob
