Hanson Buildings Brochure 2023

Garages, Workshops, Sheds, Garden Rooms,
Domestic & Industrial Steel Buildings

Welcome to Hanson Buildings

We are proud to introduce you to the most extensive range of buildings in the UK.

Throughout our long established history, Hanson Buildings have built up a reputation synonymous with quality and customer satisfaction.

Operating out of purpose built premises, our policy of continual investment in people and plant and our commitment to using only the highest quality materials has enabled us to develop buildings to the highest standard.

Each of our buildings are manufactured, delivered and installed by our highly qualified installers, therefore ensuring we can maintain our reputation of offering an excellent product as well as providing a complete service to the customer.

Market leading range of concrete garages, sheds, workshops and garden rooms.

Why Choose Hanson Buildings

Quality

Hanson Buildings continual program of investment ensures that we offer you the highest consistent quality of product and design.

Service

It's not only machinery that we invest in. Our people are one of the biggest investments we make, and the return on that investment is the best service levels around for our customers.

Peace Of Mind

Operating for over 40 years, Hanson offer a wealth of experience from management to the shop floor to installation personnel.

We offer a 10 year Structural Guarantee on the full range of buildings assuring you that your decision to purchase a Hanson building is the right one.

Flexibility and Range

Unlike any other supplier we offer the most diverse product range in the UK, designing and installing bespoke buildings to suit your needs. Our unique flexibility extends to extra height buildings, L-Shaped, tapered and lean-to buildings in a vast range of sizes and finishes, all offered to ensure we can supply the building you want at the best value for money available.

We have a flexible approach to help you meet your requirements for any space, from a small shed, through to a workshop, a garage, large or small, right up to our range of Industrial Buildings. With a wide range of options including garages, workshops, garden rooms - we can design a building to meet your needs.

Enjoy browsing through our latest brochure which we are sure will satisfy your requirements, but, if you don't see what you want, just ask - our flexible manufacturing process means that we may be able to manufacture it for you.

“Very pleased with the quality of product and staff throughout the whole process”

Mr and Mrs Ranger

With an attractive multi-spar aggregate which gives an external appearance that will blend with virtually any property. The concrete panels on all of our garages feature cleverly overlapped and bolted joints with an internal mastic seal that forms outstanding weatherproofing with excellent security properties.

This building range contains all of the following features as standard:

- Available with an Apex Roof up to 30'3" wide and unlimited length
- Available with an Knight Roof up to 20'3" wide and 30'1" long
- New pressure treated Timber Fascias (Ensuring increased lifespan, reduced maintenance and long term protection from insect rot and weather corrosion)
- Hormann Up and Over door (vertical design, white powder coated)
- 4'0" (1.22m) wide fixed Timber Window

Optional upgrades available at additional cost:

- Maintenance free PVC fascias in a range of colours
- Brick front posts in 6 design colours
- Main door upgrade
- Additional doors and windows
- Roof Upgrades

Lean-To-
Garages

Lean-To-Garages

Unique storage solution
for your home

Available on the full range of garage style roofs, our lean-to's can be attached to either side of the house.

Attractive Multi Spar aggregate with optional brick frontage, gives an external appearance that will blend with virtually any property.

Fitted with market leading Hormann up and over doors, pre-framed to give consistent performance over the lifetime of the garage. If an Up and Over door is not required, a personnel door can be chosen such as our popular Hormann 3'0" (0.91m) or 4'0" (1.22m) wide Steel doors.

The cement fibre roof drains to one side, utilising profile 5 roof sheets up to 20% thicker than many competitors.

Steel roof sheets with a felt underlay are used on the knight range of lean-to buildings to prevent condensation dripping from the roof.

Single (or double) buildings are available. If you have the space, why not add a garage and workshop to the side of your house?

A full range of options are available to ensure your building will blend in with your house, enhancing the value and improving saleability.

Choose from a range of Brick Fronts (6 options) which can match your existing property.

*Please note that flashings between the house and garage are not included.

Clad
Finish

Clad Finishes

Contemporary, innovative
and durable

Our range of cladding finishes can help create a design and finish to compliment your property.

This range is not only durable but is also maintenance free so it will look good for years to come.

Designed as an exterior cladding finish over the concrete panels, you can now have your concrete building replicating the look of a brick, stone or plank building at a fraction of the price whilst maintaining a long lasting, exceptional looking building.

See below for the full list of benefits.

- Contemporary or traditional appearance
- Continuous clad finish reproducing a brick, stone or clad effect finish
- Choice of Matching or contrasting Corners / Edgings
- Utilise cladding effect to match your location or environment
- 8 Plank Effect finishes
- 5 Brick Colours available

- 3 Stone Colours available
- Hybrid available - Possible to clad just 1, 2 or 3 sides of the building
- Available on the full range of Hanson garages or sheds
- High Quality Engineered Cladding Product
- Cost effective compared to traditionally laid brick in terms of time and money
- Durable Design
- Maintenance Free

Sheds &
Workshops

Sheds & Workshops

The most secure concrete sheds
and workshops on the market

If security is of paramount importance, a Hanson Concrete Shed / Workshop is the ideal choice. Available in a Knight or Apex roof style, our concrete sheds can be supplied in the length, width and height of your choice.

We are the only UK concrete sectional manufacturer to offer 3 Point Locking. Steel Personnel doors are standard within a building of this type. After all, why would you upgrade to a concrete building and have a timber door fitted?

Our range of Sheds and Workshops come with all of the following features as standard:

- Available with an Apex or Knight style roof
- 3'0" (0.91m) wide Hormann Steel door with 3 Point Locking for additional security (vertical design, white powder coated finish)
- 4'0" (1.22m) wide fixed Timber Window
- Foam filler to the eaves

Optional upgrades available at additional cost:

- Maintenance free UPVC fascias in a range of colours
- Brick front posts in 6 design colours
- A range of door upgrades
- Additional doors and windows
- Roof upgrades
- Brick, Stone or Plank effect Cladding for the buildings

Garden
Rooms

Garden Rooms

Apex or Pent design and custom
built to your requirements

Great for Home Offices and Garden Rooms, the Garden Building Range can be supplied with a Pent or Apex roof, with a large range of custom options such as full height windows.

Suitable for a wide range of uses from Garden Rooms, Home Offices, Man Caves, Beauty Rooms, Studios, Music Rooms, Home Gyms and much more.

As standard our Garden Building Range features maintenance free white UPVC fascias and guttering, our attractive multi-spar finish and a 10 Year Structural Guarantee.

A wide range of window and door options are available, along with many different roofing options such as our 40mm insulated roof which is recommended for this type of building. Extra height garden rooms are also available as an option.

The full range of options are available to ensure your building will meet your requirements and are an excellent, cost effective solution.

Optional upgrades available at additional cost:

- Choice of UPVC fascias in a range of colours
- Brick front posts in 6 design colours
- Additional doors and windows, such as patio doors and full length windows

Special
Garages

Special Garages

Highly flexible custom
designed buildings

Our diverse and flexible manufacturing process enables us to manufacture buildings to your individual needs.

We offer buildings with tapered walls, which will maximise space if your boundary walls are not square.

Under certain circumstances an L-Shaped building can also be supplied.

Buildings can also be fitted with dividing walls as an optional extra. This can be ideal if you require a dual purpose building, partitioning a section off for use as an office, shed, secure storage, multi gym or any other use.

The full range of options are available to ensure your building will blend in with your house, enhancing the value and improving saleability.

Choose from a range of Brick Fronts (5 options) which can match your existing property.

Optional upgrades available at additional cost:

- Maintenance free UPVC fascias in a range of colours
- Brick front posts in 6 design colours

Steel
Buildings

Steel Buildings

Unique to the UK market, this high quality steel framed range has a number of insulation options and a vast choice of finishes

Hanson Buildings are proud to introduce our range of steel buildings, probably the most extensive selection of insulated, PVC coated, galvanised steel buildings in the UK.

With a 30 year pedigree, our steel range offers you excellent value for money, elegant design, truly bespoke and maintenance free building solution for any application.

Whether you choose from our Bronze, Silver or Gold range of insulation, you're guaranteed high quality at very affordable price.

Our steel buildings are manufactured using high quality galvanised steel frames in a range of colours plus two wood effect finishes all backed by our 10 year structural guarantee, you'll be surprised at how they compare to other building solutions.

Our steel buildings meet all the current building regulations and with a short lead time and fast installation, we offer

low cost, secure parking, storage or workshop space in a design to suit your needs.

Bronze Level Insulation

Single skin walls, 25mm insulated roof, Galvanised steel frame, 10 year Guarantee, Maintenance free

Silver Level Insulation

25mm thick insulated walls and roof, Galvanised steel frame, 10 year Guarantee, Maintenance free

Gold Level Insulation

40-100 mm thick insulated walls and roof, Galvanised steel frame, 10 year Guarantee Maintenance free

Cladding and roofs are available in all British Standard Colours.

Wood effect upgrades are also available in Rosewood or Golden Oak finish.

Industrial
Buildings

Industrial Buildings

Unique, innovative and fully
insulated, high security
industrial steel buildings

Hanson Industrial Buildings have unlimited applications across all market sectors. We offer solutions for bulk storage, valeting bays, workshops, machinery storage and much more.

Your building can be customised to suit your requirements and be efficiently designed and manufactured to ensure installation as quickly and easily as possible. Hanson Industrial Buildings come with a wide range of optional extras.

At Hanson's we believe that choice is important. Your new building can be designed to meet your exact requirements regarding size, height, doors, windows and any other feature you require.

All of your buildings are virtually zero maintenance for years to come.

With extensive experience, working closely with a multitude of clients including industrial trade, government agencies and private customers across the UK.

Hanson Industrial Buildings can provide:

- Roller Doors with electric operators
- Choice of Single Skin or Fully Insulated panels ranging from 40mm-100mm insulation
- Personnel Doors - Fire Rated Emergency doors or Ten Point Locking Security Doors
- Polycarbonate Skylights
- Internal partition walls
- Open bays
- Extended eaves
- Full range of colours
- High security options
- 10 year structural guarantee
- Professional Building Assembly
- Commercial applications
- Full project management service
- Concrete Foundations

Roof Options

Cement Fibre (Apex Only)

Our cement fibre roof sheets are weatherproof and durable. They have excellent thermal and acoustic insulation.

Colours Available

Metro Tile (Apex Only)

A stone-coated and satin-finish metal roof system incorporating a corrosion-protective steel, which gives the tiles a significantly longer service life than typical galvanised metal tiles.

Colours Available

Tile Effect (Apex Only)

Tile effect steel roof sheets are stepped steel sheets designed to give the overall look and feel of a tiled roof. Also available as insulated with 25mm.

Colours Available

Tapco Slate (Apex Only)

This slate effect tile is designed to replicate an authentic slate finish. This product will not crack, break or delaminate and perform for many years to come.

Colours Available

Box Profile

Our polycoated box profile roof sheets provide a robust profile with a modern look. These roofing sheets are available in a range of different colours and come with a felt underlay.

Included as Standard

Insulated Box Profile

Our insulated box profile roof sheets come with 40mm insulation and are available in a range of different colours.

Optional Extras

Brick Fronts

Hanson Garages have developed a system to manufacture a concrete panel faced with Brick Fronts.

This unique method perfectly reproduces the effect of traditionally laid bricks.

Choose from the range of colours to perfectly match your garage to your home.

Main Doors

Hanson Buildings are committed to using only the highest quality products within our buildings.

This is why we have chosen Hormann, Europe's No1 manufacturer of up and over doors. The range of Hormann doors offer superior design, engineering excellence and outstanding security. Every Hormann up and over door produced is the result of more than 50 years experience.

They are fitted, as standard, fully retractable with a steel fixing frame for extra rigidity. The doors are galvanized steel, high quality powder coated in white to provide a maintenance free finish. Doors are available in various BS RAL colours upon request.

Main doors colours are specified on each product page, other colours available on request.

*Up and over retractable doors

Personal Doors

Available in the following options. All doors can be hinged left or right and are opening out as standard.

Windows

UPVC windows are all double glazed. Timber windows are pressure treated and are single glazed.
