Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The developments are internal therefore no trees / hedges or grassed areas will be affected

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

Principle of development

- Site lies within a Defined Urban Area and Local Centre – retail use supported in principle.
- Loss of pub acceptable only if vacancy/marketing evidence proves it is no longer viable.
- Other pubs nearby help reduce the impact of the loss.

Retail and residential use

- Shops are small-scale and appropriate for the centre.
- End uses, hours of opening, servicing and waste arrangements need to be clarified.
- Noise Impact Assessment required due to flats above shops.

Design and heritage

- Building is a non-designated heritage asset. A Heritage Statement is required.
- Grey uPVC windows not supported – timber sash or traditional style preferred.
- Signage should be modest and sympathetic.

Residential amenity

- Flats meet national space standards.
- Concern about shared rear access with shops – separate, secure access for residents recommended.
- New side window acceptable as it faces green space.

Highways and access

- Site is in a sustainable location with bus links and local services.
- Highways raise no objection.
- TfGM suggest details of servicing, cycle storage and parking

Ecology and biodiversity

- Development should deliver 10% biodiversity net gain.
- Bird and bat boxes recommended.

Overall

- Bringing the building back into use is supported in principle.
- Further evidence and design improvements are needed before a full application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☒ No

- ☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.
