

A 3D architectural rendering of a red brick building. The building features a gabled roof with a circular window (oculus) centered in the gable. A horizontal brick course runs across the facade below the gable. On the right side, there are two rectangular windows stacked vertically. The building is set on a light-colored stone or concrete base. The rendering is in a clean, illustrative style with clear outlines and a limited color palette.

A diagram of a roof structure. The roof is covered in dark grey tiles. A brick chimney is visible on the right side. Below the roof, there is a dark grey door or window opening. The walls are made of red brick.
