Good Afternoon

Thank you for consulting TfGM in respect of Application 25/01061/FUL which seeks approval for the temporary use of existing hardstanding and utility infrastructure on land adjacent to M62 Junction 19 as a construction compound including the siting and use of office and welfare cabins and other associated development to support the construction of the M60/M62/M66 Simister Island Interchange Scheme for a temporary period of up to 5 years.

From a review of the documentation, the access to the site compound is already existing and will be re-utilised as part of the proposals.

In terms of other comments,

- all vehicles will need to be able to enter and exit the site in forward gear.
- A Construction Traffic Management Plan will need to be employed for the development.

There are no other comments required from a TfGM perspective.

Kind regards

Landuse Team
