Good afternoon Rachel

Further to our consultation response dated 8th September 2025 objecting to the above proposal for the construction of 17 wind turbines on land at (and adjacent to) South Moor Wind Farm, I thought it prudent to advise you that the applicant is currently in touch with us to discuss our concerns with the proposal.

We will endeavour therefore to keep you informed of progress as these discussions progress but I would also ask you please to keep us up to date with progress with the application and timescales for determination of the application.

It is currently early days in our discussions with the applicant and as such I could not say at present how long or successful any such discussions might be.

I trust this is helpful, but if you have any queries, please do let me know.

Kind regards

OFFICIAL
