Summary

Assessment The application site is a detached building located to the rear of Church Street within the Littleborough Town Centre Conservation Area. It is a red brick building, which appears to be late 20th century in appearance, however it may have replaced / incorporated an earlier 19th century building.

Section 72(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires local planning authorities to pay special attention to the desirability of preserving or enhancing the character or appearance of Conservation Areas.

NPPF chapter 16, PfE policy JP-P2 and Rochdale CS policy P2 also apply. Conservation Areas are key heritage assets for the purposes of CS policy P2. This policy seeks to conserve, enhance and promote these assets.

There are no heritage objections to the principle of the proposed use. The removal of the rollershutters and grilles would have a minor positive impact on this late 20th century building. Details of the new windows should be secured by condition. Details of the proposed cycle rack and bin store should also be required by condition. Subject to this, it is considered that a neutral impact on the significance of the conservation area would be achieved.

Re-consultation

Only in event of significant changes to the proposals.
