ROCHDALE BOROUGH COUNCIL

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 19/00370/FUL

Name and address for correspondence:	Applicant name:
Mr Steven Peck Steven Peck MRTPI Chartered Town Planner Commons Road Dromiskin Dundalk A91 NP3F Republic Of Ireland	N/AMBNL Limited

Part I - Particulars of Application

Date of Application: 13 May 2019

Proposal:	**Removal of existing telecommunications mast, equipment housing and all associated apparatus and installation of new 25 metre mast (approximately 65 metres east of the existing site) including 6 no. antennas and 4 no. 600 millimetre dish antennas and associated apparatus, 10 no. equipment cabinets and associated ancillary works.**
Location:	**Land Off Whittle Lane, Heywood**

Part II - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

1 The development must be begun not later than three years beginning with the date of this permission.

Reason. Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

2 This permission relates to the following plans:

002 Site Location Plan
100 Existing Site Plan
101 Existing Site to be Removed Site Plan

150 Existing Elevation A
215 Max Configuration Site Plan
265 Max Configuration Elevation
and the development shall be carried out in complete accordance with the approved drawings.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

3 No above-ground works to install the 25 metre mast hereby permitted shall take place until the existing mast and associated compound fencing, cabinets and concrete base have been fully removed from the site. Within 3 months of the date of its removal, the site of the existing mast shall be restored to its pre-development condition, in full accordance with the details shown on Drawing No. 101 - Existing Site to be Removed Site Plan.

Reason: In the interests of visual amenity and to maintain the openness of the Green Belt in accordance with policies G4 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 8 July 2019

.....
Signed on behalf of the Council

IMPORTANT
PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:
The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:
The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £34.00 for householder applications and £116.00 in all other cases.

INFORMATIVE:
The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from coal mining. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological fissures; mine gas and previous surface mining sites. Although such hazards are often not readily visible, they can often be present and problems can occur as a result of development taking place, or can occur at some time in the future.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required, be submitted alongside any subsequent application for Building Regulations approval.

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action.

Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com.
