

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/01211/FUL

Name and address for correspondence:	Applicant name:
MR AIDEN PHILLIPS-WHALLEY JAMES CAMPBELL ASSOCIATES LTD CAMPBELL HOUSE 173 ROCHDALE RD FIRGROVE, MILNROW Rochdale OL16 3BN	LEE MARTIN

Part 1 - Particulars of Application

Date of 28 February 2025
Application:

Proposal:	Erection of one detached dwelling with associated car parking and landscaping
Location:	Land Adjacent To , 2 Balderstone Rd, Rochdale, OL11 2AJ

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans and documents:

- o Location Plan
- o Proposed Site Plan Drawing No 23.3148.SC1.1C
- o Proposed Floor Plans Drawing No 23.3148.SC1.2E
- o Proposed Elevations Drawing No 23.3148.SC.1.3C
- o Design and Access Statement
- o Noise Impact Assessment dated 2nd December 2024
- o Drainage Strategy Report dated 22nd November Rev 00
- o BNG Assessment WC-354.1A dated 1st February 2025

and the development shall be carried out in accordance with these details hereby approved unless otherwise required by the conditions below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 3 No development shall take place until an investigation and risk assessment (in addition to any assessment provided with the planning application) has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons.

The submitted report shall include:

- i. a survey of the extent, scale and nature of contamination
- ii. an assessment of the potential risks to:
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes,
 - o adjoining land,
 - o groundwaters and surface waters,
 - o ecological systems,
 - o archaeological sites and ancient monuments;
- iii. where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s) to form a remediation strategy for the site.

The development shall be carried out in accordance with the approved remediation strategy thereafter.

No part of the development shall be occupied until a verification report demonstrating that the approved remediation has been implemented has been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy, Policy JP-S1 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site.

- 4 Prior to the commencement of development, details of a sustainable surface water drainage scheme and a foul water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority. The drainage schemes must include:

(i) An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365;

(ii) A restricted rate of discharge of surface water agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations);

(iii) Levels of the proposed drainage systems including proposed ground and finished floor levels in AOD;

(iv) Incorporate mitigation measures to manage the risk of sewer surcharge where applicable; and

(v) Foul and surface water shall drain on separate systems.

The approved schemes shall also be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement national standards.

Prior to occupation of the proposed development, the drainage schemes shall be completed in accordance with the approved details and retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution.

Reason for pre-commencement condition: Drainage infrastructure will need to be implemented prior to commencement of above ground works and a scheme therefore needs to be agreed in advance of the same.

- 5 Notwithstanding the details shown on the approved plans, no above ground works (other than site clearance) shall commence until samples of all external facing and roofing materials have been made available for inspection on site and submitted to and approved in writing by the Local Planning Authority. All works shall be undertaken strictly in accordance with the details as approved and retained as approved thereafter. For the avoidance of doubt, these details should relate to windows, doors, roof slates and all elevation materials.

Reason: In order to ensure use of appropriate materials which are sympathetic to the character of the building and the surrounding area in the interests of visual amenity to comply with the requirements of Core Strategy Policies P1 and P3 and the National Planning Policy Framework.

- 6 Notwithstanding the details shown on the approved plans, no above ground works (other than site clearance) shall commence until full details of both hard and soft landscaping works have been submitted to and approved in writing by the Local Planning Authority. The details shall include the formation of any banks, terraces or other earthworks, hard surfaced areas and materials, planting plans, specifications and schedules (including planting size, species and numbers/densities) and a scheme for the timing / phasing of implementation works.

The landscaping works shall be carried out in accordance with the approved scheme for timing / phasing of implementation or within the next planting season following final occupation of the development hereby permitted, whichever is the sooner.

Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Core Strategy Policies G6 and G7, Policies JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 7 Notwithstanding any details submitted as part of the application, no part of the development shall be occupied until details of the type, siting, design and materials to be used in the construction of boundaries, screens or retaining walls have been submitted to and approved in writing by the Local Planning Authority. Any structures shall be installed in accordance with the approved details prior to the first occupation of the approved development and retained thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policy JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 8 No part of the development hereby permitted shall be occupied until a scheme of biodiversity enhancements has been submitted to and approved in writing by the Local Planning Authority. Such measure shall include, but not limited to, the provision of bird boxes, bird bricks, bat boxes and bat bricks to be integrated to the fabric of the buildings hereby approved, bug hotels, hibernaculum, wildflower seeding and hedgehog habitat (including provision of 'Hedgehog Highways') The duly approved scheme shall be implemented in full prior to final occupation of the phase of development to which the measures relate and retained thereafter.

Reason: In the interests of enhancing biodiversity and habitat provision within the site in accordance with Policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 9 The proposed development must be constructed in line with the requirements of the submitted and approved Noise Impact Assessment dated 2nd December 2024 to achieve the following internal noise levels:

- o 35 dB(A) Leq (16 hour) in the bedrooms with windows shut and other means of ventilation provided between 7 am and 11pm;
- o 30dB(A) Leq 8 hour in the bedrooms with windows shut and other means of ventilation provided between 11pm and 7am;
- o 35 dB(A) Leq (16 hour) in the living room/s with windows shut and other means of ventilation provided between 7 am and 11pm;
- o 40dB(A) Leq (16 hour) in other habitable rooms with windows shut and other means of ventilation provided at all times.

Upon completion and prior to occupation of the development hereby permitted, validation testing must be carried out to ensure the required noise levels have been achieved, the details of which shall be submitted to and approved in writing by the LPA prior to first occupation of the apartment hereby approved.

Reason: To protect the amenity of future occupiers in accordance with Policy G9 of the Rochdale Core Strategy.

- 10 BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- a) A Biodiversity Gain Plan has been submitted to the planning authority,
- and;
- b) The planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Rochdale Borough Council.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements are considered to apply.

For the purposes of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990, a biodiversity gain plan is a plan which:

- (a) relates to development for which planning permission is granted, and;
- (b) specifies the matters referred to below:

The matters are:

- (a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- (b) the pre-development biodiversity value of the onsite habitat;
- (c) the post-development biodiversity value of the onsite habitat;
- (d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- (e) any biodiversity credits purchased for the development; and
- (f) any such other matters as the Secretary of State may by regulations specify.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 27 June 2025

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: [Fees for Planning Applications in England](#)

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.
