Part I - Particulars of Application

Date of 9 December 2022
Application:

Proposal:	Alterations to existing car park layout, including widening vehicle access
Location:	502 Oldham Road, Rochdale, OL11 2AT

Part II - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

1. The development must be begun not later than three years beginning with the date of this permission.

Reason. Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

2. This permission relates to the following plans:

- Land at Harrow Street, Rochdale (Location Plan)
- 2022.0042.2721 A100 Rev B Proposed New Car Park Layout With New Entry and Exit
- SK21766-04 Rev A Vehicle Swept Path Analysis - 7.5t Box Van
- SK21766-03 Rev A Vehicle Swept Path Analysis - 7.5t Box Van
- SK21766-02 Rev A Revised Access and Parking Strategy

and the development shall be carried out in complete accordance with these drawings hereby approved.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the saved Rochdale Unitary Development Plan, the adopted Rochdale Core Strategy and the National Planning Policy Framework.

3. The materials used in the construction of the proposed works shall match those used in the construction of the existing car park, footways and pavement, except as otherwise specified on the approved site plan.

Reason: In order to ensure a satisfactory appearance in the interests of visual amenity in accordance with policies P3 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 27 March 2023

Daniela Ripa
Interim Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from coal mining. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological fissures; mine gas and previous surface mining sites. Although such hazards are often not readily visible, they can often be present and problems can occur as a result of development taking place, or can occur at some time in the future.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required, be submitted alongside any subsequent application for Building Regulations approval.

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action.

Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com.

INFORMATIVE:

The proposal to reposition the existing totem sign on the application site, as indicated on the proposed site plan, requires Advertisement Consent, as approval of commercial signage is subject to advertisement control rather than planning control. The granting of planning permission does not comprise Advertisement Consent, which must be sought and granted before this element of the proposed works is implemented.

INFORMATIVE:

The application includes amendments to the existing access which would include works within the adopted highway, therefore a separate permission would be required from the Council's Highway Team. Such works should be approved and completed prior to the amended car park being brought into first use.
