## Description of Proposed Works

Please describe the proposed works

The property has been empty for a few years and is in a state of neglect and ruin. Our builder has advised us to have it rendered as this will help cause any further damp problems to the bricks and will be useful remedial work for the house. There are lots of bricks that have blown due to frost and lots of different types of bricks that have been used. We are intending using a silicone based product which is more expensive but will stop any further damp and will help insulate the house. The house is not overlooked by any other properties. The colour will be white. There are lots of other houses on the close that are rendered and lots in the immediate area too. Please please come and see the property , my number is [REDACTED] ring me and I will meet you there. The builder and I can show you both inside and outside the house so you are able to see the extent of the damage caused by damp.
