

Town and Country Planning Act 1990 (as amended)

OUTLINE PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 23/00215/OUT

Name and address for correspondence:	Applicant name:
Nigel Longshaw A.J.COCKER ASSOCIATES New Century House 176 Drake Street Rochdale OL16 1UP	Mr James Ruben Grieves

Part I - Particulars of Application

Date of Application: 23 March 2023

Proposal:	Outline application (including details of access, layout and scale) for the erection of 3 detached bungalows (re-submission of 22/01298/OUT)
Location:	Land Off Arcon Close (rear Of 55-71 Willows Lane), Milnrow

Part II - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and submitted plans subject to the following condition(s):

Conditions and Reasons:

- 1 Application for approval of reserved matters must be made not later than the expiration of three years beginning with the date of this permission and the development must be begun not later than whichever is the later of the following dates:

- (a) The expiration of three years from the date of this permission; or
- (b) The expiration of two years from the final approval of the reserved matters, or in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: To comply with the requirements of Section 92 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2 The approval of the Local Planning Authority shall be sought in respect of the following matters before the development is commenced: (appearance and landscaping).

Reason: The application is granted in outline only under the provisions of Article 5 of the Town and Country Planning (Development Management Procedure) Order 2015 and details of the matters referred to in the condition have not been submitted for consideration.

- 3 This permission relates to the following plans and documents:

Drawing No: H473-02 - Location Plan
Received 2nd March 2023

Drawing No: H473-01-B - Proposals
Received 26th June 2023

and the development shall be carried out in accordance with the approved drawings unless otherwise required by the conditions below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 4 The materials to be used in the construction of the external surfaces of this development shall be as specified on the plans and/or application forms unless otherwise agreed in writing with the Local Planning Authority.

Reason: In the interests of visual amenity and ensuring the new development responds positively to the local context and character in accordance with Policy P3 of the adopted Rochdale Core Strategy and the requirements of the National Planning Policy Framework.

- 5 No dwelling hereby permitted shall be occupied until the vehicle access serving it has been constructed in accordance with the plans hereby approved.

Reason: In the interests of road safety in accordance with Policies T2 and DM1 of the Rochdale Core Strategy.

- 6 No dwelling hereby approved shall be occupied until the roads/private drive serving it have been provided in accordance with the approved drawings to the satisfaction of the Local Planning Authority.

Reason: In the interests of road and pedestrian safety in accordance with Policies T2 and DM1 of the Rochdale Core Strategy.

- 7 The dwelling(s) hereby permitted shall not be occupied until all vehicle parking space(s) have been provided in accordance with the plans hereby approved. The space(s) shall be kept available for parking at all times thereafter.

Reason: To ensure that the development is provided with adequate parking facilities to meet the needs of future occupiers and reduce the likelihood of roadside parking which could be a danger to other road users in accordance with policies T2 and DM1 of the Rochdale Core Strategy.

- 8 Notwithstanding the approved drawings, the development hereby permitted shall not be occupied until details of refuse and recycling storage sufficient for the intended development has been submitted to and approved in writing by the Local Planning Authority. The approved details shall be fully implemented before first occupation and the areas of land so provided shall not be used for any purposes other than the storage (prior to disposal) or the collection of refuse and recycling and shall be thereafter retained and maintained as such.

Reason: In the interests of general amenity, to ensure convenience of arrangements for refuse and recycling storage and collection and to ensure that no obstruction is caused

on the adjoining highway, in the interest of highway safety and in accordance with policies T2 and DM1 of the Rochdale Core Strategy.

- 9 No development shall take place (including any demolition) until a Construction Method Statement (CMS), has been submitted to, and approved in writing by the Local Planning Authority, which shall include the following:

- i) the parking of vehicles of site operatives and visitors;
- ii) loading and unloading of plant and materials;
- iii) storage of plant and materials used in constructing the development;
- iv) the erection and maintenance of security hoarding;
- v) measures for the protection of the natural environment from accidental spillages, dust and debris including dedicated protection measures (including high visibility fencing) for the retained trees during and after construction;
- vi) a lighting plan designed to direct any temporary lighting away from the retained trees and hedgerow during and after construction.
- vii) hours of construction, including deliveries (which should not take place outside of the hours of 08:00-18:00 Monday to Friday and 09:00-14:00 Saturday, with no work taking place on Sundays or Bank Holidays).

The development shall be carried out in accordance with the approved CMS.

Reason: To minimise detrimental effects to the neighbouring amenities, the amenities of the area in general, detriment to the natural environment through the risks of pollution and dangers to highway safety, during the construction phase in accordance with Policies DM1, T2, G7, G8 and G9 of the Core Strategy and the National Planning Policy Framework.

Reason for pre-commencement condition: As the proposals require ground works and engineering works an understanding will therefore be necessary of what measures will be put in place to protect the amenity of nearby residents prior to commencement of any building or engineering works on site.

- 10 No construction, demolition or associated deliveries shall take place outside the hours of 0800hrs to 1800hrs Mondays to Fridays, and 0800hrs to 1300hrs on Saturdays, and not at any time on Sundays and Bank or Statutory Holidays without prior written approval from the Local Planning Authority.

Reason: In order to protect occupiers of nearby properties from unreasonable disturbance from works connected with implementing this permission in accordance with Policies DM1 and G9 of the Rochdale Core Strategy.

- 11 Notwithstanding the details shown on the approved plans, prior to first occupation of the dwellings hereby approved, a scheme of hard and soft landscaping shall be submitted to and approved in writing by the Local Planning Authority. This scheme shall specify means of treatment for hard surfaced areas, means of enclosure including mammal gaps where appropriate, specify species (including native trees and hedgerows), planting sizes, spacing and numbers of trees/shrubs to be planted (including replacement trees and tree pit specifications where appropriate, and must include a maintenance programme detailing all operations to be carried out in order to allow successful establishment of planting.

Planting shall be carried out in accordance with the approved details in the first planting and seeding seasons following the occupation of the building(s) or in accordance with a timetable agreed in writing with the Local Planning Authority. Any trees or plants which, within a period of 5 years from the date of planting, die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, to be agreed in writing by the Local Planning Authority.

Reason: In the interest of ensuring that the landscaping of the development enhances the visual local environment and in accordance with Policy G6 of the Rochdale Core Strategy.

- 12 No development shall commence on site (including demolition or preparatory works) until details of a Biodiversity Enhancement Plan are submitted to and approved in writing by the Local Planning Authority. The scheme will provide opportunities for local wildlife and aim to retain or enhance LBAP priority habitats, to ensure the development does not have a significant detrimental impact on local or national wildlife populations. The BEP shall include a programme for implementation and ongoing maintenance. The Biodiversity Enhancement Plan shall thereafter be implemented and adhered to in accordance with the agreed programme.

Reason: Details are required prior to commencement as insufficient information was submitted with the application and in order to avoid harm to habitats and species whilst securing biodiversity enhancement in the long term. This accords with Paragraph 174 of the NPPF (2021), Policy G7 of the Rochdale Core Strategy, the Wildlife and Countryside Act 1981 (as amended) and The Conservation of Habitats and Species Regulations 2017.

- 13 Prior to first occupation of the development a sustainable drainage management and maintenance plan for the lifetime of the development shall be submitted to the local planning authority and agreed in writing. The sustainable drainage management and maintenance plan shall include as a minimum:

- a. Arrangements for adoption by an appropriate public body or statutory undertaker, or, management and maintenance by a resident's management company; and
- b. Arrangements for inspection and ongoing maintenance of all elements of the sustainable drainage system to secure the operation of the surface water drainage scheme throughout its lifetime.

The development shall subsequently be completed, maintained and managed in accordance with the approved plan.

Reason: To ensure that management arrangements are in place for the sustainable drainage system in order to manage the risk of flooding and pollution during the lifetime of the development in accordance with Policy G8 of the adopted Rochdale Core Strategy, saved Policy EM/7 of the adopted Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 14 Prior to the commencement of development, details of a sustainable surface water drainage scheme and a foul water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority. United Utilities may request evidence that the drainage hierarchy has been fully investigated and why more sustainable options are not achievable before a surface water connection to the public sewer is acceptable.

The drainage scheme shall include:

- (i) An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365;
- (ii) A restricted rate of discharge to public sewer agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations); the rate should match the existing predevelopment greenfield runoff rate from the site, or 5l/s, whichever is the larger value.
- (iii) Mitigation measures to manage the risk of sewer surcharge, if UU Developer Services advise that this is necessary.
- (iv) Levels of the proposed drainage systems including proposed ground and finished floor levels in mAOD. Foul and surface water shall drain on separate systems at least to the point of discharge from the site, in accordance with Building Control Part H Drainage requirements.
- (v) The background calculations of the MicroDrainage® model or any other software or calculations that are used for the drainage design.
- (vi) Construction details for permeable paving including sub-base details e.g. cross-section, if this type of paving forms part of the sustainable drainage system.

The approved scheme shall also be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement national standards. Prior to occupation/ use of the proposed development, the drainage scheme shall be completed in accordance with the approved details and retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. To prevent an increased risk of flooding as a result of the development and to ensure satisfactory disposal of surface water from the site in accordance with Policy G8 of the adopted Rochdale Core Strategy, saved Policy EM/7 of the adopted Rochdale Unitary Development Plan and the National Planning Policy Framework.

Reason for pre-commencement condition: Drainage infrastructure will need to be implemented prior to commencement of above ground works and a scheme therefore needs to be agreed in advance of the same.

- 15 No development shall take place until an investigation and risk assessment has been submitted to and nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons and a written report of the findings submitted to and approved in writing by the Local Planning Authority before any development takes place.

The submitted report shall include:

- i) a survey of the extent, scale and nature of contamination
- ii) an assessment of the potential risks to:
 - human health;
 - property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes;
 - adjoining land;
 - groundwaters and surface waters;
 - ecological systems;
 - archaeological sites and ancient monuments; and
- iii) where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s) to form a remediation strategy for the site.

The development shall thereafter be carried out in accordance with the approved remediation strategy and a verification report submitted to and approved in writing by the Local Planning Authority before any of the building(s) hereby approved are first occupied.

Reason: To prevent pollution of the environment and to ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policies G8 and G9 of the Core Strategy and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site.

- 16 Notwithstanding the provisions of Part 1, Schedule 2, Article 3, of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any order revoking or re-enacting that Order with or without modification), no development within Class A (enlargement, improvement or other alteration), Class B (enlargement of a dwellinghouse consisting of an addition or alteration to its roof), Class D (erection or construction of a porch outside any external door) or Class E (building or enclosure, swimming or other pool required for a purpose incidental to the enjoyment of the dwellinghouse) shall be carried out within the curtilage of the dwelling without express planning permission from the Local Planning Authority.

Reason: Due to the constrained nature of the site and as unrestricted development could harm the amenities of neighbouring properties through overlooking or being overbearing and harm the appearance of the main house and the area in general and should therefore be controlled in accordance with Policy DM1 of the Core Strategy and the National Planning Policy Framework.

Procedure Statement:

The Local Planning Authority worked proactively with the applicant to identify various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition.

Date Decision Issued 7 July 2023

Daniela Ripa
Interim Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE.YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £34.00 for householder applications and £116.00 in all other cases.

INFORMATIVE:

The proposed development lies within a coal mining area which may contain unrecorded mining related hazards. If any coal mining feature is encountered during development, this should be reported to The Coal Authority. Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Property specific summary information on coal mining can be obtained from The Coal Authority Property Search Service on 0845 762 6848 or at www.groundstability.com.

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms but as an indication, the present charge for a suite of three 240l recycling bins and one 240l refuse bin is £144 per residence. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.

INFORMATIVE:

The applicant is advised to refer to the advice given by United Utilities dated 25th April 2023.
