

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/01135/FUL

Name and address for correspondence:	Applicant name:
Mr Paul Ambrose R&R Planning Consultants 11 Bankfield Lane ROCHDALE OL11 5RJ	Mr Chris GrievesHallmark Developments (North West) Ltd

Part 1 - Particulars of Application

Date of 13 May 2025
Application:

Proposal:	Erection of one industrial building subdivided into 5 no. units together with associated car parking, access and landscaping
Location:	Astra Centre, Royle Barn Road, Rochdale, OL11 3DT

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans and documents:

- o Existing Site and Location Plans Drawing No RBR-SVA-ZZ-ZZ-DR-A-2000 Rev D
- o Proposed Site and Location Plans Drawing No RBR-SVA-ZZ-ZZ-DR-A-2001 Rev G
- o Existing and Proposed Street Scene Elevations Drawing No RBR-SVA-ZZ-ZZ-DR-A-2020 Rev E
- o Proposed Floor Plan Drawing No RBR-ZZ-ZZ-DR-A-2005 Rev D
- o Proposed Elevations Drawing No RBR-SVA-ZZ-ZZ-DR-A-2015 Rev F
- o Proposed Aerial Drawing No RBR-SVA-ZZ-ZZ-DR-A-2025 Rev F
- o Proposed Landscaping Plan Drawing No 736.02A
- o Design and Access Statement dated 27th November 2024
- o Biodiversity Metric Report Reference 81-973-R2-2 Dated April 2025
- o Transport Statement Reference 240666 Dated November 2024
- o Arboricultural Impact Assessment Reference 81-973-R3-1 dated December 2024

The development shall be carried out in accordance with these drawings and documents hereby approved unless otherwise required by condition below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan, Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 3 Prior to the commencement of development, details of a sustainable surface water drainage scheme and a foul water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority. The drainage schemes must include:

(i) An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365;

(ii) A restricted rate of discharge of surface water agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations);

(iii) Levels of the proposed drainage systems including proposed ground and finished floor levels in AOD;

(iv) Incorporate mitigation measures to manage the risk of sewer surcharge where applicable; and

(v) Foul and surface water shall drain on separate systems.

The approved schemes shall also be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement national standards.

Prior to occupation of the proposed development, the drainage schemes shall be completed in accordance with the approved details and retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. To prevent an increased risk of flooding as a result of the development and to ensure satisfactory disposal of surface water from the site in accordance with Policy G8 of the adopted Rochdale Core Strategy, Policy JP-S4 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Reason for pre-commencement condition: Drainage infrastructure will need to be implemented prior to commencement of above ground works and a scheme therefore needs to be agreed in advance of the same.

- 4 No development shall take place until an investigation and risk assessment (in addition to any assessment provided with the planning application) has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons.

The submitted report shall include:

- i) a survey of the extent, scale and nature of contamination
- ii) an assessment of the potential risks to:
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes,
 - o adjoining land,
 - o groundwaters and surface waters,
 - o ecological systems,
 - o archaeological sites and ancient monuments;
- iii) where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s) to form a remediation strategy for the site.

The development shall be carried out in accordance with the approved remediation strategy thereafter.

No part of the development shall be occupied until a verification report demonstrating that the approved remediation has been implemented has been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy, Policy JP-S1 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site.

- 5 Notwithstanding the details shown on the approved plans, no above ground works (other than site clearance) shall commence until samples of all external facing and roofing materials have been submitted to and approved in writing by the Local Planning Authority. All works shall be undertaken strictly in accordance with the details as approved and retained as approved thereafter.

Reason: In order to ensure use of appropriate materials which are sympathetic to the character of the building and the surrounding area in the interests of visual amenity to comply with the requirements of Core Strategy Policies P1 and P3 and the National Planning Policy Framework.

- 6 No development (including any demolition, site clearance or preparation works) shall take place until the trees that are to be retained within the site has been enclosed with temporary protective fencing and temporary ground protection has been fully installed in full accordance with BS:5837:2012 'Trees in relation to design, demolition and

construction' and with the approved Arboricultural Impact Assessment and Tree Protection Plan ref. 001 dated 13.12.2024.

The necessary protection measures shall be retained and the Arboricultural Impact Assessment Referenced 81-973-R3-1 shall be adhered to throughout the construction phase of the development and no works, excavation, tipping, or stacking/storage of materials shall take place beyond such protective fencing during the construction period.

Reason: In order to protect the existing trees on the site in the interests of the amenities of the area and in accordance with Policies P3, G1, G6 and G7 of the adopted Rochdale Core Strategy, Policies JPP1, JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 7 The proposed landscaping works as shown on approved Proposed Landscaping Plan Drawing No 736.02A shall be carried out in accordance with the approved scheme prior to first occupation of the development hereby approved.

Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Core Strategy Policies G6 and G7, Policies JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 8 The car parking, servicing and other vehicular access arrangements shown on the approved plans to serve the development hereby permitted shall be made fully available for use prior to the development being first brought into use and shall be retained thereafter for their intended purpose. They shall not be used for external storage purposes.

Reason: In the interest of highway safety and the free flow of traffic and in accordance with Policies T2 and DM1 of the adopted Rochdale Core Strategy, Policy JP-C8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 9 No above ground works (other than site clearance) shall take place until full details and specifications of [solar photo-voltaic panels including large scale drawings at a scale of not less than 1:50] AND/OR [air source heat pumps including details of their siting and appearance] have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policies JP-S2 and JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 10 Notwithstanding any details submitted as part of the application, no part of the development shall be occupied until details of the type, siting, design and materials to be used in the construction of any boundaries, screens or retaining walls have been submitted to and approved in writing by the Local Planning Authority. Any structures shall be installed in accordance with the approved details prior to the first occupation of the approved development and retained thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policy JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 11 The development shall not commence until a Habitat Management and Monitoring Plan (the HMMP) has been submitted to, and approved in writing by, the local planning authority. The HMMP shall be prepared in accordance with the approved Biodiversity Gain Plan and include:

- a) a non-technical summary;
- b) the roles and responsibilities of the people or organisation(s) delivering the HMMP;
- c) the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the approved Biodiversity Gain Plan, including a timetable for its implementation and completion;
- d) the management measures to maintain habitat in accordance with the approved Biodiversity Gain Plan for a period of 30 years from the completion of development; and
- e) the monitoring methodology and frequency in respect of the created or enhanced habitat to be submitted to the local planning authority.

The created and/or enhanced habitat specified in the approved HMMP shall be completed, managed and maintained in accordance with the approved HMMP.

Notice in writing shall be given to the Council when the:

- a) HMMP has been implemented; and
- b) habitat creation and enhancement works as set out in the HMMP have been completed.

Monitoring reports shall be submitted to local planning authority in writing in accordance with the methodology and frequency specified in the approved HMMP.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990 and policies G6 and G7 of the adopted Rochdale Core Strategy and JP-G8 of the adopted Places for Everyone Joint Development Plan.

Reason for Pre-commencement: The HMMP will be required as part of the arrangements to be approved under the statutory BNG condition which requires submission of the Biodiversity Gain Plan prior to commencement of development.

12 BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- a) A Biodiversity Gain Plan has been submitted to the planning authority,
- and;
- b) The planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Rochdale Borough Council.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements are considered to apply.

For the purposes of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990, a biodiversity gain plan is a plan which:

(a) relates to development for which planning permission is granted, and;

(b) specifies the matters referred to below:

The matters are:

(a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;

(b) the pre-development biodiversity value of the onsite habitat;

(c) the post-development biodiversity value of the onsite habitat;

(d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;

(e) any biodiversity credits purchased for the development; and

(f) any such other matters as the Secretary of State may by regulations specify.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 8 July 2025

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: [Fees for Planning Applications in England](#)

INFORMATIVE:

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine

gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:
Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk) In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.
