Summary

From the above assessment I would conclude that the principle of development, bringing forward affordable family homes on a sustainably located brownfield site, is supported by the council.

The site does however feature a number of constraints, including but not limited to flood risk, location within the green corridor, level changes, and adjacent infrastructure. These constraints will necessitate careful consideration in the design and technical details of the development.

The proposals as presented in Options 1 and 2 both have areas which require reconsideration to achieve a high quality design without sacrificing residential amenity. The advice provided above with regards to urban design, landscaping and elevational treatments should be incorporated in any proposals which are developed further and brought forward within an application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
