SITE

This site related to Shell Greengate Service Station. The Shell garage is located along the B6393.

This site is not a listed building and is not within a conservation area.

PROPOSAL

The application proposes to construct one internally illuminated double sided totem sign adjacent to the site entrance.

The totem sign will be 6.95m high, 0.7m deep and 1.75m wide. The letters on the sign will spell out 'EV power Fast Clean Energy 150KW' in blue and green on the front and rear elevation.

The proposed sign will be internally and externally illuminated.

RELEVANT PLANNING POLICY

National Guidance

National Planning Policy Framework (NPPF)

National Planning Practice Guidance (NPPG)

Adopted Rochdale Core Strategy (CS):

SO3 – Improving design, image and quality of place

P3	Improving Design of New Development
P2	Protecting and Enhancing Character, Landscape and Heritage
DM1	General Development Requirements

Unitary Development Plan (UDP):

G/D/1	Defined Urban Area
-------	--------------------

RELEVANT SITE HISTORY

12/A5968 - Installation Of One Double-Sided Internally Illuminated Freestanding Totem Sign, Three Internally Illuminated Fascia Signs, Seven Non-Illuminated Fascia Signs, Seven Non-Illuminated Freestanding Directional Signs, Four Non-Illuminated Over Pump Spreader Signs And Three Non-Illuminated Wall Mounted Information Signs – Approved

16/01482/FUL - Extension to existing building including new shop frontage, demolition of existing car wash (to be replaced by 7 additional parking bays), formation of 3 new parking bays to front of shop and alterations to existing site exit – Approved

22/00313/FUL - Erection of a single storey side extension to existing sales building including erection of new timber fence for bin enclosure – Approved

CONSULTATION RESPONSES

Highways

Having reviewed the position of the proposed signage it would appear that it would have no impact on the surrounding highway network.

Highways raise no objection to this application and request no specific planning conditions.

REPRESENTATIONS

In line with the Council's Publicity Code for Applications, no direct publicity was undertaken and no representations have been received.

ANALYSIS

In assessing applications for advertisement consent, paragraph 136 of the NPPF establishes that advertisements should be subject to control only in the interests of amenity and public safety, taking account of cumulative impacts.

Amenity

The quality and character of places can suffer when advertisements are poorly sited and designed. As such, with all applications for advertisements an assessment should be made as to the impacts on visual amenity and to accord with policy P3 of the Core Strategy; signs should be compatible with the surrounding area and protect the character and appearance of the street scene. In addition, Policy DM1 sets out the Council's general development requirements and establishes that proposals should not adversely impact on highway safety

In the proposed location it is considered that the illuminated signs will appear prominent but is considered an acceptable addition to the site and characteristic of a service station more generally. The visual appearance of the signage is compatible with the character of the surrounding location.

Public Safety

Policy DM1 sets out the Council's general development requirements and establishes that proposals should not adversely impact on highway safety. Whilst it is accepted that the purpose of an advertisement is to attract attention, it is important to consider whether such adverts would have the potential to have an adverse impact on road safety.

The highways department raised no objections, it is therefore considered that the proposed signage is acceptable in terms of public safety and in accordance with policy DM1 and the NPPF.

RECOMMENDATION

Grant Subject to Conditions

Standard five conditions and the following:

1. No advertisement is to be displayed without the permission of the owner of the site or any other person with an interest in the site entitled to grant permission.
2. No advertisement shall be sited or displayed so as to –
 - endanger persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
 - obscure, or hinder the ready interpretation of, any traffic sign, railway sign or aid to navigation by water or air; or
 - hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.
3. Any advertisement displayed, and any site used for the display of advertisements, shall be maintained in a condition that does not impair the visual amenity of the site.
4. Any structure or hoarding erected or used principally for the purpose of displaying advertisements shall be maintained in a condition that does not endanger the public.

5. Where an advertisement is required under these Regulations to be removed, the site shall be left in a condition that does not endanger the public or impair visual amenity.
6. This approval gives consent for 5 years from the date of this permission.
7. During the hours of darkness, the illumination level shall not exceed 600 candelas per square metre.

Reason: In order to safeguard the amenities of the area of and neighbouring residents and to safeguard the interests of road safety in accordance with policies P2, P3, T2 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

8. There shall be no special effects (including noise, smell, smoke, animation, flashing, scrolling, three dimensional, intermittent or video elements) of any kind during the time that any message is displayed.

Reason: In order to safeguard the amenities of the area of and neighbouring residents and to safeguard the interests of road safety in accordance with policies P2, P3, T2 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Notes for Applicant:
