RECOMMENDATION

GRANT SUBJECT TO CONDITIONS

CHECKED AND SIGNED OFF BY: RK

DATE: 14/06/2024

SITE

The application relates to one Sycamore tree (T1) subject to Tree Preservation Order (TPO254) located within the curtilage of no. 1 Byron Grove in Bamford.

PROPOSAL

The proposal seeks consent to remove one Sycamore tree and the planting of two replacement trees. The submitted Tree Report states the tree has significant stem decay and rot at the base and noticeable dieback within the upper crown, which poses a high risk to the adjacent property. Auriculariaceae is also currently present which contributes to further decay.

RELEVANT PLANNING POLICY

National Guidance

National Planning Policy Framework (NPPF)
National Planning Practice Guidance (NPPG)

Places for Everyone Joint Development Plan (PfE)

The Places for Everyone Joint Development Plan was adopted and became part of the statutory development plan for each of the 9 authorities covered by the plan on 21st March 2024. The following policies are relevant:

Policy JP-G6: Urban Green Space
Policy JP-G7: Trees and Woodland
Policy JP-G8: A Net Enhancement of Biodiversity and Geodiversity

Adopted Rochdale Core Strategy (CS):

G6 Enhancing green infrastructure
G7 Increasing the value of biodiversity and geodiversity

CONSULTATION RESPONSES

Tree Officer

No comments received to date.

REPRESENTATIONS

In accordance with Council policy on neighbour notification for this type of application, no letters of notification were sent to neighbouring properties.

ANALYSIS

In considering applications for works to protected trees, Government advice in paragraph 90 of the NPPG states:

“When considering an application the authority is advised to:

- 1 assess the amenity value of the tree or woodland and the likely impact of the proposal on the amenity of the area;*
- 2 consider, in the light of this assessment, whether or not the proposal is justified, having regard to the reasons and additional information put forward in support of it;*
- 3 consider whether any loss or damage is likely to arise if consent is refused or granted subject to conditions;*
- 4 consider whether any requirements apply in regard to protected species;*
- 5 consider other material considerations, including development plan policies where relevant; and*
- 6 ensure that appropriate expertise informs its decision.”*

In considering whether there has to be an arboricultural need for proposed works to a TPO, paragraph 91 of the NPPG states:

“In general terms, it follows that the higher the amenity value of the tree or woodland and the greater any negative impact of proposed works on amenity, the stronger the reasons needed before consent is granted. However, if the amenity value is lower and the impact is likely to be negligible, it may be appropriate to grant consent even if the authority believes there is no particular arboricultural need for the work.”

With regard to the above, the main considerations in respect of this application are whether the proposal for works to the tree is justified in light of the assessment of the amenity value of the tree and whether the reasons for works are of sufficient standing to warrant the granting of consent.

No comments were received from the Tree Officer at the time of writing. Notwithstanding, the submitted Tree Report notes the Sycamore tree has significant stem decay and rot at the base and noticeable dieback within the upper crown, which may inflict potential harm to no. 1. On this basis, the proposed felling of the tree is justified in the interest of safety and good arboriculture practice. The applicant has

agreed to plant two new trees, which would compensate for the loss of amenity value afforded by the tree. Replacement planting of a native species will be secured via condition.

Subject to the suggested conditions, the application proposal is therefore considered to be compliant with the guidance contained within the NPPG noted above, and the application is recommended for approval.

GMEU standing advice on tree works and protected species will be attached to the decision notice and therefore the obligations in respect of protected species will have been met.

RECOMMENDATION

GRANT subject to standard conditions, plus:

3. Within the next planting season after the felling of the tree hereby approved, a minimum of two replacement trees shall be planted within the curtilage of no. 1 Byron Grove and shall be a native species which is of a similar size at maturity. If any of the replacement trees is removed, dies, become severely damaged or seriously diseased within three years of planting, it shall be replaced by a tree of similar size and species within the first planting season following removal of that tree.

Reason: To mitigate for the loss of the existing trees and to protect the visual amenity of the area and in accordance with Policy G6 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Notes for Applicant:

For the avoidance of doubt, this Decision Notice relates to the following drawings / document(s):-

- Location Plan – received 22/04/2024
- Photos of protected trees subject to proposed works – received 22/04/2024
- Tree Report – dated 22/04/2024
