

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/00835/FUL

Name and address for correspondence:	Applicant name:
Paul Clark CJ Partnership Blue Pit Mill Queensway Castleton Rochdale OL11 2PG	Mr Mike Morris C/O Agent

Part 1 - Particulars of Application

Date of Application: 3 September 2024

Proposal:	Construction of a single bespoke two-storey detached dwelling with a double garage and associated landscaping
Location:	Land Adjacent To No. 1 Wildhouse Court, Wildhouse Lane, Milnrow, OL16 3UU, ,

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans and documents:

- o Location Plan Drawing No 07 Rev A
- o Existing Site Plan Drawing No 01 Rev A
- o Proposed Site Plan Drawing No 05 Rev E
- o Proposed Site Plan Drawing No 10 Rev C
- o Proposed Elevations Drawing No 03 Rev F
- o Proposed Elevation Section Drawing No 14 Rev A
- o Proposed Elevation Section Drawing No 15 Rev A
- o Proposed Elevation Drawing No 16 Rev A
- o Proposed Elevation Drawing No 17 Rev A
- o Cross Section Drawing No 18
- o Cross Section Drawing No 19
- o Street Scene Drawing No 20 Rev A
- o Landscape Proposals Drawing No 26
- o Planning Statement and Green Belt Policy Statement Dated November 2024

- o Heritage Statement Dated January 2024
- o Arboricultural Impact Assessment Dated
- o Overheating Study AG-78035-TM59-Rev A Dated 22nd July 2024
- o Design and Access Statement
- o Energy and Sustainability Statement Referenced Z63362

and the development shall be carried out in accordance with these details hereby approved unless otherwise required by the conditions below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 3 No above ground works shall commence until samples of all external facing and roofing materials (notwithstanding any details shown on previously submitted plans) have been submitted to and approved in writing by the Local Planning Authority. All works shall be undertaken strictly in accordance with the details as approved and retained as approved thereafter. For the avoidance of doubt, these details should relate to windows, doors, eaves, verges, soffits, rainwater goods, glazed panels, elevation materials.

Reason: In order to ensure use of appropriate materials which are sympathetic to the character of the building and the surrounding area in the interests of visual amenity and heritage and to comply with the requirements of Core Strategy Policies P1, P2 and P3 and the National Planning Policy Framework.

- 4 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) (Schedule 2, Part 1, Classes A, B, C, D, E) or any subsequent re-enactment thereof, no extension to the dwelling, porch, garden shed, greenhouse, garage or car port shall be erected nor any hardstanding area extended other than those expressly authorised by this permission.

Reason: The design of the proposed development hereby approved attracts significant weight in this Green Belt location and the introduction of extensions and further built

development without due consideration of the appearance of the dwelling could undermine the architectural qualities of this proposal.

- 5 Prior to first occupation of the development hereby approved, full details of the alignment, height and appearance of all fences and walls to be erected to the site boundaries (notwithstanding any such detail shown on previously submitted plans) shall be submitted to and approved in writing by the Local Planning Authority. The development hereby approved shall not be occupied before all walls and fences have been erected in accordance with the approved details. Fences and walls shall thereafter be retained in accordance with the approved details at all times.

Reason: In order to ensure use of appropriate materials which are sympathetic to the character of the building and the surrounding area in the interests of visual amenity and heritage and to comply with the requirements of Core Strategy Policies P1, P2 and P3 and the National Planning Policy Framework.

- 6 Prior to first occupation of the development hereby approved, full details of the colour, form and texture of all hard landscaping (ground surfacing materials) (notwithstanding any such detail shown on previously submitted plans and specification) shall have been submitted to and approved in writing by the Local Planning Authority. All works shall be undertaken strictly in accordance with the details as approved, and shall be completed in all respects before the final completion of the development and thereafter retained.

Reason: In order to ensure use of appropriate materials which are sympathetic to the character of the building and the surrounding area in the interests of visual amenity and heritage and to comply with the requirements of Core Strategy Policies P1, P2 and P3 and the National Planning Policy Framework.

- 7 Notwithstanding the details shown on the approved Landscape Proposals Drawing No 26, no above ground works shall commence until a further soft landscaping scheme and specification has been submitted to and agreed in writing by the Local Planning Authority.

For the avoidance of any doubt, any submission shall also include details of the proposed rain garden and pond, including cross section drawings. The scheme must include a specification of the aquatic plants to be provided and a cross section of the pond should be provided. The pond must be created and stocked with locally native species from a reliable stockist.

The scheme should also indicate the types and numbers of trees, plants and shrubs to be planted, their distribution and arrangement on the site and those areas to be seeded.

All proposed planting shall be carried out in accordance with the approved details within the first planting and seeding seasons following the completion of the development. Any trees, plants or shrubs which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Policy G7 of the adopted Rochdale Core, Policies JP-P1 and JP-G2 of the Places for Everyone Plan and the NPPF.

- 8 Prior to the commencement of the development, a detailed construction management plan outlining working practices during construction shall be submitted for approval in writing by the Council, as Local Planning Authority, which for the avoidance of doubt should include:

- o Display of an emergency contact number;
- o Details of Wheel Washing;
- o Dust Management Plan;

- o Compound locations where relevant;
- o Location, removal and recycling of waste;
- o Routing strategy, vehicular access point, vehicular activity associated with construction and swept path analysis; and,
- o Parking of construction vehicles and staff.

The development shall be carried out in accordance with the approved construction management plan throughout the construction period.

Reason: To safeguard the amenities of nearby residents and businesses, highway safety and air quality, pursuant to policies DM1 and T2 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Reason for Pre-commencement Condition: Construction/clearance works on-site have the potential to impact residential health and amenity, and the natural environment/habitats from the initial stages. Appropriate safeguards should therefore be put in place prior to works starting.

- 9 Prior to the commencement of development, details of a sustainable surface water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority.

Prior to occupation of the proposed development, the drainage scheme shall be completed in accordance with the approved details and retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution.

Reason for pre-commencement condition: Drainage infrastructure will need to be implemented prior to commencement of above ground works and a scheme therefore needs to be agreed in advance of the same.

- 10 No development (including any demolition, site clearance or preparation works) shall take place until a detailed method statement for the removal or long-term management/eradication of invasive non-native (alien) species of plant on the site has been submitted to and approved in writing by the local planning authority. The method statement shall include measures to prevent the spread of invasive non-native (alien) species of plant during any operations such as mowing, strimming or soil movement, and measures to ensure that any soils brought to the site are free of the seeds/roots/stems of any invasive plant covered under the Wildlife and Countryside Act 1981. Development shall be carried out in accordance with the approved method statement.

Reason: In accordance with policy G7 of the adopted Rochdale Core Strategy and Policy JP-G8 of the adopted Places for Everyone Joint Development Plan and to ensure the satisfactory treatment and disposal of invasive plant species which, under the terms of the Wildlife & Countryside Act 1981 (as amended) it is an offence to be caused to be spread in the wild.

Reason for pre-commencement condition: Construction activity increases the risk of invasive species spreading.

- 11 No development (including any demolition, site clearance or preparation works) shall take place until such time as all trees to be retained within the site has been enclosed with temporary protective fencing and temporary ground protection has been fully installed in full accordance with BS:5837:2012 'Trees in relation to design, demolition and construction' or any subsequent amendment to the British Standard. The fencing shall be retained throughout the period of construction and no activity prohibited by BS:5837:2012 shall take place within such protective fencing during the construction period.

Reason: In order to protect the existing trees on the site in the interests of the amenities of the area and in accordance with Policies P3, G1, G6 and G7 of the

adopted Rochdale Core Strategy, Policies JP-P1, JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Reason for Pre-commencement Condition: Construction works on site have the potential to impact trees from the initial stages, and therefore need to be protected prior to works starting on site.

- 12 No clearance of log piles, trees, undergrowth and shrubs in preparation for (or during the course of) development shall take place during the bird nesting season (March - August inclusive) unless an ecological survey has been submitted to and approved in writing by the Local Planning Authority to establish whether the site is utilised for bird nesting. Should the survey reveal the presence of any nesting species, then no development shall take place during the period specified above unless a mitigation strategy has first been submitted to and approved in writing by the Local Planning Authority which provides for the protection of nesting birds during the period of works on site.

Reason: In order to prevent any habitat disturbance to nesting birds in accordance with policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of PfE and the National Planning Policy Framework.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 23 April 2025

Melanie Hale
Head of Planning Services

BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- a) A Biodiversity Gain Plan has been submitted to the planning authority,

and;

- b) The planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Rochdale Council.

Based on the information available this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements in the list below is/are considered to apply.

The proposed development is a Self and Custom Build Development, meaning development which:

- (i) Consists of no more than 9 dwellings;
(ii) Is carried out on a site which has an area no larger than 0.5 hectares;

and;

(iii) Consists exclusively of dwellings which are self-build or custom housebuilding (as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015).

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £43.00 for householder applications and £145.00 in all other cases.

INFORMATIVE:

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk) In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms but as an indication, the present charge for a suite of three 240l recycling bins and one 240l refuse bin is £144 per residence. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.
