Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The extent of the proposed new bathroom is entirely within the existing bathroom footprint. The main works consist of the following:

- Replace the shower over bath with a walk-in shower and add free-standing bath to make the room more flexible.
- Remove existing plasterboard to acoustically insulate the bathroom.
- Replace existing vinyl flooring with porcelain tiles.
- Refinish the room with a combination of timber panelling and tiles to shower area.
- Install ceiling-mounted bathroom extract to ventilate the space and reduce the humidity in the house caused by modern living.

The only change visible externally is the proposed new extract fan grill above the window. The position of the fan will be subject to access in the loft space, therefore the position currently indicative.

Existing waste pipe holes will be utilised.

All works are subject to further investigation once the existing bathroom is removed. Any significant changes to the proposal will be discussed with the Conservation Officer before instructing.

Attached documents including plans, specifications and Design and Access Statement for more information.
