**IMPORTANT**

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

**INFORMATIVE:**

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

**INFORMATIVE:**

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £34.00 for householder applications and £116.00 in all other cases.

**INFORMATIVE:**

This decision does not imply consent to carry out any work which may encroach over a common boundary. Such work may include excavation, positioning of walls, fences or other construction such as roofs or gutters which overhang the boundary line. The applicant is therefore advised to obtain the consent of any landowner prior to the commencement of such work. The applicant's attention is also drawn to the provisions of the Party Wall Act 1996, which sets out the rights and responsibilities of adjoining landowners in respect of the construction or alterations of any party walls, excavations and other construction works adjacent to the boundary line. Before proceeding with the development professional advice on the provision of the Act should be sought. "The Party Wall etc. Act 1996: explanatory booklet" is available free of charge from: <https://www.gov.uk/guidance/party-wall-etc-act-1996-guidance>.

**INFORMATIVE:**

Bats can be mobile and cryptic in their habits, and can turn up in unexpected places. Under the Wildlife and Countryside Act 1981 it is an offence to capture, injure or kill a bat, deliberately disturb a bat, or damage or destroy a bat roost. Planning consent does not provide a defence against prosecution under this act. If bats are encountered at any time during works, work must cease and advice sought from a suitably qualified person about how best to proceed.

**INFORMATIVE:**

The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from coal mining. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological fissures; mine gas and previous surface mining sites. Although such hazards are often not readily visible, they can often be present and problems can occur as a result of development taking place, or can occur at some time in the future.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required, be submitted alongside any subsequent application for Building Regulations approval.

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action.

Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at [www.groundstability.com](http://www.groundstability.com).
