

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 23/00584/FUL

Name and address for correspondence:	Applicant name:
Paul Clark CJ Partnership Blue Pit Mill Queensway Castleton Rochdale OL11 2PG	Mr Martin Muldowney

Part 1 - Particulars of Application

Date of Application: 30 June 2023

Proposal:	Erection of one detached dwelling together with associated works including, access, landscaping and renewable energy scheme, following excavation of land - Resubmission of 22/01250/FUL
Location:	Site Adjacent To 51 Blackstone Edge Old Road , Blackstone Edge Old Road, Littleborough, Rochdale, OL15 0JJ,

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason. Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development shall be carried out in accordance with the following drawings and documents hereby approved:

- Site Location Plan. Drawing number: 01. Revision: A
- Proposed Site Plan. Drawing number: 20. Revision: A
- Plans as Proposed. Drawing number: 21. Revision: A
- Concept-Form and Materials. Drawing number: 24. Revision: A
- Concept-Form and Materials. Drawing number: 31. Revision: A. Received by email on 23/05/2025.
- Proposed Roof Plan. Drawing number: 32. Revision: A. Received by email on 23/05/2025.
- Cross-section. Drawing number: 23. Revision: A
- Street View Blackstone Edge Old Road. Drawing number: 30. Revision: A. Received by email on 21/03/2025

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan, the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 3 The development hereby approved shall be constructed in materials contained within the approved drawings 'Concept-Form and Materials' (Drawing number: 24; Revision: A and Drawing number: 31; Revision: A) unless first agreed in writing by the Local Planning Authority.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policy JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 4 No part of the development hereby permitted shall be occupied until a scheme of biodiversity enhancements pursuant to that phase of development has been submitted to and approved in writing by the Local Planning Authority. Such measure shall include, but not limited to, the provision of bird boxes, bird bricks, bat boxes and bat bricks to be integrated to the fabric of the buildings hereby approved, bug hotels, hibernaculum, wildflower seeding and hedgehog habitat (including provision of 'Hedgehog Highways') The duly approved scheme shall be implemented in full prior to final occupation of the phase of development to which the measures relate and retained thereafter.

Reason: In the interests of enhancing biodiversity and habitat provision within the site in accordance with Policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 5 No clearance of trees and shrubs in preparation for (or during the course of) development shall take place during the bird nesting season (March - August inclusive) unless a detailed bird nest survey by a suitably experienced ecologist has been carried out immediately prior to clearance and written confirmation provided that no active bird nests are present or provides detailed protection scheme of nesting birds during the period of works on site which has been agreed in writing by the Local Planning Authority.

Reason: In order to prevent any habitat disturbance to nesting birds in accordance with policy G7 of the adopted Rochdale Core Strategy, policy JP-G8 of the adopted Places for Everyone Joint DPD and the National Planning Policy Framework.

- 6 The recommendations made for measures during the construction process as submitted in sections 10.2 to 10.5 of the submitted Preliminary Ecological Appraisal (prepared by Verity Webster; dated: September 2022) shall be adhered at all times during the construction process unless first agreed in writing by the Local Planning Authority.

Reason: In order to ensure protected species are appropriately protected from the development and to accord with the requirements of policy G7 of the Rochdale Core Strategy, policy JP-G8 of the Places for Everyone Joint DPD and the National Planning Policy Framework.

- 7 No development (including any demolition, site clearance or preparation works) shall take place until the trees that are to be retained within the site has been enclosed with temporary protective fencing and temporary ground protection has been fully installed in full accordance with BS:5837:2012 'Trees in relation to design, demolition and construction' and with the approved Tree Protection Plan (Drawing number 6898.02).

The necessary protection measures shall be retained and the Arboricultural Method Statement in the Arboricultural Impact Assessment and Method Statement (by TBA Landscape Architects; Ref: MG/6898/AIA&AMS/SEP22; Dated: September 2022) shall be adhered to throughout the construction phase of the development and no works, excavation, tipping, or stacking/storage of materials shall take place beyond such protective fencing during the construction period.

Reason: In order to protect the existing trees on the site in the interests of the amenities of the area and in accordance with Policies P3, G1, G6 and G7 of the adopted Rochdale Core Strategy, Policies JP-P1, JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 8 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), or any equivalent Order following the revocation and re-enactment thereof, the dwelling hereby approved shall not be altered or extended, and no buildings or structure shall be erected within their curtilage under Schedule 2, Part 1, Classes AA, A, B, C, D, E and F of the above Order.

Reason: To prevent undue harm to the amenity of existing and future occupiers and in the interest of visual amenity and in accordance with Policies P3 and DM1 adopted Rochdale Core Strategy and Policy JP-P1 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 9 Notwithstanding any details submitted as part of the application, no part of the development shall be occupied until details of the type, siting, design and materials to be used in the construction of boundaries, screens or retaining walls have been submitted to and approved in writing by the Local Planning Authority. Any structures shall be installed in accordance with the approved details prior to the first occupation of the approved development and retained thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and ensure protected species are appropriately protected, and in accordance with Policies P3, G7 and DM1 of the adopted Rochdale Core Strategy, Policies JP-P1 and JP-G8 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 10 No above ground works shall take place until full details and specifications of solar photo-voltaic panels, including large scale drawings at a scale of not less than 1:50, and air source heat pumps and heat recovery system, including details of their siting have been submitted to and approved in writing by the Local Planning Authority. The

development shall be carried out in accordance with the approved details thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policies JP-S2 and JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 11 Notwithstanding the details shown on the approved plans, no above ground work shall take place until full details of both hard and soft landscaping works have been submitted to and approved in writing by the Local Planning Authority. The details shall include the formation of any banks, terraces or other earthworks, hard surfaced areas and materials, planting plans, specifications and schedules (including planting size, species and numbers/densities) and a scheme for the timing / phasing of implementation works.

The landscaping works shall be carried out in accordance with the approved scheme for timing / phasing of implementation or within the next planting season following final occupation of the development hereby permitted, whichever is the sooner.

Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Core Strategy Policies G6 and G7, Policies JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 12 No above ground works shall take place until full product specifications for the windows, external doors, roof lights, and detailed designs of the window and door reveals, at a scale of not less than 1:50, to be used on the development hereby approved, have been submitted to and approved in writing by the Local Planning Authority. The windows and doors shall be installed in accordance with the approved details thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policy JP-P1 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 13 Prior to the commencement of development, details of a sustainable surface water drainage scheme and a foul water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority. The drainage schemes must include:
- (i) An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365;
 - (ii) A restricted rate of discharge of surface water agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations);
 - (iii) Levels of the proposed drainage systems including proposed ground and finished floor levels in AOD;
 - (iv) Incorporate mitigation measures to manage the risk of sewer surcharge where applicable; and
 - (v) Foul and surface water shall drain on separate systems.

The approved schemes shall also be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement or amendment thereof.

The duly approved scheme shall be implemented prior to the first occupation of any part of the development, and shall be retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. To prevent an increased risk of flooding as a result of the development and to ensure satisfactory disposal of surface water from the site in accordance with Policy G8 of the adopted Rochdale Core Strategy, Policy JP-S4 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Reason for pre-commencement condition: Drainage infrastructure will need to be implemented prior to commencement of above ground works and a scheme therefore needs to be agreed in advance of the same.

- 14 Prior to commencement of the development a Phase I Report (Preliminary Risk Assessment) must be completed to assess the actual and/or potential contamination risks at the site. The Phase 1 Report must be submitted to, and approved in writing by, the Local Planning Authority and shall include a desk top study, site walk over, conceptual model, basic hazard assessment and recommendation regarding the need or otherwise for further investigation and risk assessment.

Where the Phase 1 Report has identified potential unacceptable risks, a suitable Investigation, risk assessment and remedial action shall be carried out in accordance with details and within a timescale to have first been submitted to and approved in writing by the Local Planning Authority.

In the event that contamination is suspected or found at any time when carrying out the approved development that was not previously identified, or contamination is caused, the Local Planning Authority shall be notified immediately and development affected and potentially affected by the contamination must stop. An investigation and/or risk assessment and/or remediation shall be carried out in accordance with an agreed process and within agreed timescales to have first been submitted to and approved in writing by the Local Planning Authority. If contamination is not suspected, found or caused during development, this must be confirmed in a completion letter which is subject to the approval in writing of the Local Planning Authority

Reason: To prevent pollution of the water environment and to ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Rochdale Core Strategy Policies DM1 and G9, and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site, to ensure there is not a risk of contamination.

- 15 No above ground works shall take place until a scheme to provide a visibility splay of 2.4 by 43 metres to each side of the access serving the application site on to Blackstone Edge Old Road has been submitted to and approved in writing by the Local Planning Authority. The area of land between the visibility splay line and the highway boundary shall be kept clear of all obstructions in excess of 0.6 metre in height at all times thereafter. The approved scheme shall be implemented in accordance with the approved details before first occupation of any dwelling.

Reason: In the interest of highway safety, in accordance with policy T2 of the adopted Rochdale Core Strategy and the requirements of the National Planning Policy Framework.

Procedure Statement:

The Local Planning Authority worked proactively with the applicant to identify various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would

accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition.

Date Decision Issued 19 June 2025

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: [Fees for Planning Applications in England](#)

INFORMATIVE:

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk) In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.

INFORMATIVE:

The applicant is reminded that under the Protection of Badgers Act 1992 it is an offence to intentionally or recklessly interfere with a badger sett. If a badger sett is found on or near the developments site work should cease immediately and a suitably experienced ecologist employed to advise on how best to proceed.

INFORMATIVE:

Under the Wildlife and Countryside Act 1981 it is an offence to capture, injure or kill a bat, deliberately disturb a bat, or damage or destroy a bat roost. Planning consent does not provide a defense against prosecution under this act.

INFORMATIVE:

The applicant is reminded that, under the Wildlife and Countryside Act 1981 as amended it is an offence to remove, damage, or destroy the nest of a wild bird, while the nest is in use or being built. Planning consent does not provide a defense against prosecution under this act. If a birds nest is suspected work should cease immediately and a suitably experienced ecologist employed to assess how best to safeguard the nest(s).

INFORMATIVE:

The Fire and Rescue Services strongly supports the installation of domestic sprinkler systems as a positive measure to protect persons. All developers should positively consider the viability of installing domestic sprinkler systems.
