

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/00759/FUL

Name and address for correspondence:	Applicant name:
Mr Stuart Howden Northern Planners Jubilee Court Copporve Harrogate North Yorkshire HG3 3TB	Mr Browne

Part I - Particulars of Application

Date of Application: 6 August 2024

Proposal:	Erection of 2 detached dwellings following demolition of existing garage, including alterations to site access and associated boundary treatments
Location:	Land To The Side Of 26 Falcon Close, Rochdale, OL12 7RY

Part II - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans, files and documents:-

Location Plan - Dwg No 24NP504/01/001
Proposed Site Plan - Dwg No 24 NP504/01/003 Rev A
Proposed Landscaping Plan - Dwg No 24NP504/01/008 Rev A
Proposed Floor and Roof Plans East House - Dwg No 24NP504/01/005 Rev B
Proposed Elevations - East House - Dwg No 24NP504/01/004 Rev B

Proposed Elevations - West House - Dwg No 24NP504/01/006 - Rev B
Proposed Floor and roof plans west house - Dwg No 24NP504/01/007 - Rev B
Arboricultural Impact Assessment, prepared by E3P dated June 24, and all accompanying appended plans

and the development shall be carried out in complete accordance with these drawings hereby approved unless otherwise required by the conditions below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 3 Prior to the commencement of development (except demolition of the garage hereby approved), details of a sustainable surface water drainage scheme and a foul water drainage scheme shall be submitted to and approved in writing by the Local Planning Authority. The drainage schemes must include:

- (i) An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365;
- (ii) A restricted rate of discharge of surface water agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations);
- (iii) Levels of the proposed drainage systems including proposed ground and finished floor levels in AOD;
- (iv) Incorporate mitigation measures to manage the risk of sewer surcharge where applicable; and
- (v) Foul and surface water shall drain on separate systems.

The approved schemes shall also be in accordance with the Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacement national standards. Prior to occupation of the proposed development, the drainage schemes shall be completed in accordance with the approved details and retained thereafter for the lifetime of the development.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution.

Reason for pre-commencement condition: The submitted drainage scheme is not acceptable. As the proposals require ground works, these details are required prior to commencement of any building or engineering works on site.

- 4 Notwithstanding any information submitted with the application, no development (except demolition of the garage hereby approved), shall take place until an investigation has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons and a written report of the findings submitted to and approved in writing by the Local Planning Authority before any development takes place. The submitted report shall comprise:

- ii) where potential risks are identified by the Preliminary Risk Assessment, a site investigation survey of the extent, scale and nature of contamination and;
- ii) an assessment of the potential risks to:
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes,
 - o adjoining land,
 - o groundwaters and surface waters,
 - o ecological systems,
 - o archeological sites and ancient monuments;

iii) where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s) to form a remediation strategy for the site.

The development shall thereafter be carried out in full accordance with the duly approved remediation strategy.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site.

- 5 No above ground works shall take place until a scheme to provide a visibility splay of 24 metres by 2.5 metres to each side of the access serving the development where it meets Woodhouse Lane, has been submitted to and approved in writing by the Local Planning Authority. The area of land between the visibility splay line and the highway boundary shall be kept clear of all obstructions in excess of 0.6 metre in height at all times thereafter. The approved scheme shall be implemented in accordance with the approved details before first occupation of any dwelling.

Reason: In the interest of highway safety, in accordance with the requirements of Core Strategy Policy T2 and the NPPF.

- 6 No above ground construction works shall take place until samples on site and full specifications of materials to be used externally on the buildings have been submitted to and approved in writing by the Local Planning Authority. Such details shall include the type, colour and texture of the materials. The development shall be carried out in accordance with the approved details. These materials shall include red brick and / or natural stone to the elevations and natural slate to the roof.

Reason: In the interests of amenity and in compliance with policies P2, P3 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

- 7 Notwithstanding the development hereby approved, no above ground construction works shall take place until detailed designs of the window and door reveals, at a scale of not less than 1:50, to be used on the development hereby approved, have been submitted to and approved in writing by the Local Planning Authority. The windows and doors shall be installed in accordance with the approved details thereafter.

Reason: In the interests of visual amenity and in accordance with policies P1, P2, P3 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework

- 8 Notwithstanding the details shown on the approved plans, no above ground construction shall take place until full details of both hard and soft landscaping works, including compensatory tree planting at a ratio of 2:1 have been submitted to and approved in writing by the Local Planning Authority. The details shall include the formation of any banks, terraces or other earthworks, hard surfaced areas and materials, planting plans, specifications and schedules (including planting size, species and numbers/densities), existing plants / trees to be retained and a scheme for the timing / phasing of implementation works.

The landscaping works shall be carried out before any dwelling is occupied.

Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 10 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Core Strategy Policy G6 and G7 and the National Planning Policy Framework.

- 9 All trees to be retained, which is limited to those shown on 'Tree Impacts & Protection Plan' included in Appendix III of the approved Arboricultural Impact Assessment dated June 24 prepared by E3P, shall be protected in accordance with British Standard BS 5837:2012 or any subsequent amendment to the British Standard.

Reason: To safeguard the trees to be retained and in accordance with Core Strategy Policy G6 and G7 and the National Planning Policy Framework.

- 10 Pursuant to condition 4, and prior to first occupation of any dwelling, a verification report, which validates that all remedial works undertaken on site were completed in accordance with those agreed with the Local Planning Authority, shall be submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

- 11 Before the development hereby permitted is occupied, full details of the alignment, height and appearance of all fences and walls and gates to be erected (notwithstanding any such detail shown on previously submitted plan(s)) shall have been submitted to and approved in writing by the Local Planning Authority. No dwelling shall be occupied until all fences and walls shown in the approved details to bound its plot have been erected in conformity with the approved details. Other fences and walls shown in the approved details shall have been erected in conformity with the approved details prior to occupation of the final dwelling.

Reason: In the interests of visual and residential amenity and in accordance with policies P1, P2, P3 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

- 12 The development shall not commence until a Habitat Management and Monitoring Plan (the HMMP), prepared in accordance with the approved Biodiversity Gain Plan (see BNG section below) and including:

- (a) a non-technical summary;
- (b) the roles and responsibilities of the people or organisation(s) delivering the [HMMP];
- (c) the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the approved Biodiversity Gain Plan;
- (d) the management measures to maintain habitat in accordance with the approved Biodiversity Gain Plan for a period of 30 years from the completion of development; and
- (e) the monitoring methodology and frequency in respect of the created or enhanced habitat to be submitted to the local planning authority,
- (f) has been submitted to, and approved in writing by the Local Planning Authority.

Reason: To ensure that the requirements of The Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024 are fulfilled and in order to ensure the delivery of a net gain in biodiversity in accordance with the requirements of Policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 13 Notice in writing shall be given to the Council when the:
- (a) HMMP has been implemented; and
 - (b) Habitat creation and biodiversity enhancement works set out in the HMMP have been completed.

Reason: To ensure that the requirements of The Biodiversity Gain (Town and Country Planning) (Modifications and Amendments) (England) Regulations 2024 are fulfilled and in order to ensure the delivery of a net gain in biodiversity in accordance with the

requirements of Policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 5 December 2024

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £43.00 for householder applications and £145.00 in all other cases.

INFORMATIVE:

The proposed development lies within an area that has been defined by The Coal Authority as containing potential hazards arising from coal mining. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological fissures; mine gas and previous surface mining sites. Although such hazards are often not readily visible, they can often be present and problems can occur as a result of development taking place, or can occur at some time in the future.

It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required, be submitted alongside any subsequent application for Building Regulations approval.

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action.

Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com.

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms but as an indication, the present charge for a suite of three 240l recycling bins and one 240l refuse bin is £144 per

residence. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.

BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority,
- and;
- (b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Rochdale Council.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements listed below are considered to apply.

Statutory exemptions and transitional arrangements in respect of the biodiversity gain condition.

1. The application for planning permission was made before 12 February 2024.
2. The planning permission relates to development to which section 73A of the Town and Country Planning Act 1990 (planning permission for development already carried out) applies.
3. The planning permission was granted on an application made under section 73 of the Town and Country Planning Act 1990 and
 - (i) the original planning permission to which the section 73 planning permission relates* was granted before 12 February 2024; or
 - (ii) the application for the original planning permission* to which the section 73 planning permission relates was made before 12 February 2024.
4. The permission which has been granted is for development which is exempt being:
 - 4.1 Development which is not 'major development' (within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015) where:
 - i) the application for planning permission was made before 2 April 2024;
 - ii) planning permission is granted which has effect before 2 April 2024; or
 - iii) planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 where the original permission to which the section 73 permission relates* was exempt by virtue of (i) or (ii).
 - 4.2 Development below the de minimis threshold, meaning development which:
 - i) does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
 - ii) impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).
 - 4.3 Development which is subject of a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015. A "householder application" means an application for planning permission for

development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

4.4 Development of a biodiversity gain site, meaning development which is undertaken solely or mainly for the purpose of fulfilling, in whole or in part, the Biodiversity Gain Planning condition which applies in relation to another development, (no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee).

4.5 Self and Custom Build Development, meaning development which:

- i) consists of no more than 9 dwellings;
- ii) is carried out on a site which has an area no larger than 0.5 hectares; and
- iii) consists exclusively of dwellings which are self-build or custom housebuilding (as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015).

4.6 Development forming part of, or ancillary to, the high speed railway transport network (High Speed 2) comprising connections between all or any of the places or parts of the transport network specified in section 1(2) of the High Speed Rail (Preparation) Act 2013.

*original planning permission means the permission to which the section 73 planning permission relates" means a planning permission which is the first in a sequence of two or more planning permissions, where the second and any subsequent planning permissions are section 73 planning permissions.

For the purposes of paragraph 13 (a) above, a biodiversity gain plan is a plan which:

- (a) relates to development for which planning permission is granted,

and;

- (b) specifies the matters referred to in sub-paragraph 14(2) below:

The matters are:

- (g) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- (h) the pre-development biodiversity value of the onsite habitat;
- (i) the post-development biodiversity value of the onsite habitat;
- (j) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- (k) any biodiversity credits purchased for the development; and
- (l) any such other matters as the Secretary of State may by regulations specify.
