Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

The monument is constructed of Ashlar Grit Stone, the monument is comprised of a depressed arch rising from gabled buttresses with a central square pillar supporting the arch at its centre and rising above the arch, flanking the main central pillar are stone gables covering the arch and the pillar cap. A family crest also adorns the central pillar, this is now losing its definition as it is suffering from severe weathering. The monument was designated a grade 2 listing in 2001 by Historic England, but as it stands today, it can only be considered to be in a satisfactory condition considering its listing, it is also now out of plumb and has a slight lean.

The proposed works is two fold, The first part is to remove the trough from its current position which is next to The White Hart Pub and the pedestrian crossing point. This is to be done due to the fact the trough has been damaged by a vehicle in the past and is now leaning. Due to the increase in the traffic on Heywood Old Road the trough is in a very vulnerable position. Therefore, dismantling the trough and relocating is the best solution.

The second part is the relocation works, this works will mean the trough will be moved to an area of land gifted by Gary Loudon a local birch resident. This is area of land is directly diagonal from where the trough was located near The White Hart Pub. On the corner of Langley lane and Heywood Old Road. This area will be a permanent position for the trough as it is set back from the road so it is less vulnerable to passing traffic. But is still central enough to the surrounding village Birch for the residents to enjoy. The trough will be rebuilt and any repairs will be rectified so once situated in its new position the trough will be fully restored. Around the area of gifted land there will be a heritage styled spherical topped railings at 1.2m that will protect the area of pedestrians cutting across the land but also to make a feature around the trough as well.

Demolition of Listed Building

Does the proposal include the partial or total demolition of a listed building?

- ☒ Yes
☐ No

If Yes, which of the following does the proposal involve?

a) Total demolition of the listed building

- ☒ Yes
☐ No

b) Demolition of a building within the curtilage of the listed building

- ☐ Yes
☒ No

c) Demolition of a part of the listed building

- ☐ Yes
☒ No

Please provide a brief description of the building or part of the building you are proposing to demolish

Due to the current condition of the stone and the monuments stability, it has been deemed necessary that the whole monument structure will have to be taken down stone by stone in order for it to be repaired first then reinstated in its proposed new position. Therefore, it technically is being demolished as it is not staying in its current location or in its current state.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

It is necessary to dismantle and reinstate the monument due to the fact it is next to a busy main road (Heywood Old Road) and has been hit by a vehicle before and could be at risk of being hit again. Also there is a new crossing that has recently been installed next to the monument and due to the monuments current state and stability it could fall and hurt a pedestrian who is crossing. The monuments proposed new position is directly diagonal on the opposite side of Heywood Old road. It would yes be proposed to be positioned on the same road but it will set back from pavement so it is more safe position. Also the monument will be made a feature of in the village of birch in its new proposed position. See proposed relocation drawing of trough site plan. The new proposed setting will make it a visible feature in the village then it currently is at the moment.
