

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/00772/FUL

Name and address for correspondence:	Applicant name:
FRANK SMITH JAMES CAMPBELL ASSOCIATES LTD CAMPBELL HOUSE 173 ROCHDALE ROAD FIRGROVE, MILNROW ROCHDALE OL16 3BN	BRODIE INGOEB & L HOMES LTD

Part 1 - Particulars of Application

Date of 7 October 2024
Application:

Proposal:	The erection of two residential dwellings with associated car parking and landscaping
Location:	Land Adj To Platting Lane, Rochdale, OL11 2JT

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans and documents:

- o Location Plan
- o Proposed Site Plan Drawing No 24.3406.2N
- o Proposed Section Drawing No 24.3406.8E
- o Proposed Elevations Drawing No 24.3406.6F
- o Proposed Floor Plans Drawing No 24.3406.5E
- o Drainage Plan & Details Reference dwg-tjba-B&L-plattingIn-201224.dwg Rev 1

- o Water Environmental Regulations Assessment Rev 1
- o Preliminary Ecological Appraisal Rev 3
- o BNG Assessment Rev 3
- o Flood Risk and Drainage Assessment Rev 2
- o Arboricultural Impact Assessment and Arboricultural Method Statement
- o Phase 1, 2 and 3 Geo-Environmental Audit Rev 2
- o River Condition Assessment dated 28th November 2024

and the development shall be carried out in accordance with these details hereby approved unless otherwise required by the conditions below.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 3 Following completion of the measures identified in the approved Phase 1, 2 and 3 Geo-Environmental Audit and prior to first occupation of the approved development, a verification report that demonstrates the effectiveness of the remediation carried out shall be submitted to and approved in writing by the Local Planning Authority.

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken and where further remediation is necessary, an updated remediation strategy must be prepared, which shall be submitted to and approved in writing by the Local Planning Authority.

The development shall thereafter be carried out in full accordance with the duly approved remediation strategy.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy, Policy JP-S1 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 4 The relocated speed bump shown on the approved proposed site plan Drawing No 24.3406.2M hereby permitted shall be installed prior to first occupation of the development hereby approved.

Reason: In the interest of highway safety and the free flow of traffic and in accordance with Policies T2 and DM1 of the adopted Rochdale Core Strategy, Policy JP-C8 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 5 Notwithstanding the details shown on the approved plans, no above ground works (other than site clearance or preparation works) shall take place until such time as samples of materials to be used externally in the construction of the development i.e. red brick and natural slate have first been submitted to and approved in writing by the Local Planning Authority. Samples of these materials shall be made available for inspection on site. In addition, a detailed specification of all other materials to be used including window and door frames, window heads and cills shall also be submitted for approval. Such details shall include the type, colour and texture of the materials. The development shall be carried out in accordance with the duly approved details thereafter.

Reason: In the interests of ensuring a satisfactory visual appearance to the development and in accordance with Policies P3 and DM1 of the adopted Rochdale Core Strategy, Policy JP-P1 of the adopted Places for Everyone Joint Development Plan, and the National Planning Policy Framework.

- 6 Notwithstanding the details shown on the approved plans, no above ground works (other than site clearance or preparation works) shall commence until full details of both hard and soft landscaping works have been submitted to and approved in writing by the Local Planning Authority. The details shall include the formation of any banks, terraces or other earthworks, hard surfaced areas and materials, planting plans, specifications and schedules (including planting size, species and numbers/densities) and a scheme for the timing / phasing of implementation works. All proposed replacement planting shall take place on a 2:1 basis.

The landscaping works shall be carried out in accordance with the approved scheme for timing / phasing of implementation or within the next planting season following final occupation of the development hereby permitted, whichever is the sooner.

Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with Core Strategy Policies G6 and G7, Policies JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 7 No development shall take place until the trees that are to be retained within the site have been enclosed with temporary protective fencing and temporary ground protection has been fully installed in full accordance with BS:5837:2012 'Trees in relation to design, demolition and construction' and with the submitted Arboricultural Impact Assessment and Arboricultural Method Statement.

The necessary protection measures shall be retained and the Arboricultural Method Statement shall be adhered to throughout the construction phase of the development and no works, excavation, tipping, or stacking/storage of materials shall take place beyond such protective fencing during the construction period.

Reason: In order to protect the existing trees on the site in the interests of the amenities of the area and in accordance with Policies P3, G1, G6 and G7 of the adopted Rochdale Core Strategy, Policies JP-P1, JP-G6 and JP-G7 of the adopted Places for Everyone Joint Development Plan and the National Planning Policy Framework.

- 8 No site clearance shall occur between the 1st March and 31st August in any year unless a competent Ecologist has undertaken a careful, detailed check of vegetation for active birds' nests immediately before clearance and provided written confirmation that no birds will be harmed and/or that there are appropriate measures in place to protect nesting birds interests on site.

Reason: In order to prevent any habitat disturbance to nesting birds in accordance with policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of PfE and the National Planning Policy Framework.

- 9 The development hereby approved shall be carried out in accordance with the approved Flood Risk Assessment Rev 2 dated February 2025 and the following mitigation measures it details:

o Finished floor levels shall be set no lower than 136.18 metres above Ordnance Datum (AOD).

These mitigation measures shall be fully implemented prior to occupation and these measures shall be retained and maintained thereafter throughout the lifetime of the development.

Reason: To manage and prevent the risk of flooding as a result of the development.

BIODIVERSITY NET GAIN

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- a) A Biodiversity Gain Plan has been submitted to the planning authority,
- and;
- b) The planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Rochdale Borough Council.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements are considered to apply.

For the purposes of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990, a biodiversity gain plan is a plan which:

- (a) relates to development for which planning permission is granted, and;
- (b) specifies the matters referred to below:

The matters are:

- (a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- (b) the pre-development biodiversity value of the onsite habitat;
- (c) the post-development biodiversity value of the onsite habitat;
- (d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- (e) any biodiversity credits purchased for the development; and
- (f) any such other matters as the Secretary of State may by regulations specify.

Procedure Statement:

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.

Date Decision Issued 24 July 2025

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: [Fees for Planning Applications in England](#)

INFORMATIVE:

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:
Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk) In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.
