Location

The application relates to 91 Hollin Lane; a semi-detached, two-storey property in Middleton. Hollin Lane (A6046) is an A road running through residential suburbs of Middleton. There is a mix of housing types including semi-detached, terrace, and bungalows comprising a varying material palette. Hollin Lane is built on a hillside and has expansive views looking to the east.

The applicant property faces north, overlooking the public highway and the junction with Furness Road. It is adjoined by no. 91a to the west and sits adjacent to no.89 to the east. The rear boundary of the curtilage faces south and borders a public alleyway connecting Kinder Way with Hollin Lane.

Description of Proposal

Permission is sought for a certificate of lawfulness for the proposed conversion of the existing garage to an office with a store and WC, including alterations to front elevation.

Is the proposal wholly within the curtilage of the dwellinghouse?	yes

Relevant History:

24/00095/HOUS – Grant STC:

Formation of pitched roof over existing attached garage and hipped roof over existing front porch together with alterations to fenestration on the first floor side elevation.

23/00925/HOUS – Refused:

Formation of pitched roof over existing garage and front porch extension following demolition of existing front porch

Reason:

1. By virtue of its built forms, massing and design, the proposed development would constitute an irregular and incongruous addition to the host dwelling which would result in undue harm to the character and appearance of the host dwelling and surrounding area. The proposed development would not be well-designed and therefore fails to accord with Policies DM1 and P3 of the adopted Rochdale Core Strategy, the Council's adopted Supplementary Planning Document 'Guidelines

and Standards for Residential Development' and the National Planning Policy Framework.

20/00852/HH42 – Prior Approval Not Required

Prior notification for a single storey extension measuring 4.64m from the rear of the original dwelling (with a maximum height of 3m and height to eaves 2.52m)
