Description of Proposed Works

Please describe the proposed works

To allow the permissible height access to my loft area and to allow room in my loft area. I have fitted a front box style dormer into my property. Many houses locally to me have front aspect dormers in different styles mostly box type and I have also done this. The dormer to the front is smaller than the rear it is not as wide and does not come as far down to the front gutter front aspect. The slates on the roof area have been used on the cheeks and front of the dormer and the windows are anthracite grey to help blend in with the roof. I already have permission for the rear box dormer which inspectors have checked before the floor joists were covered, and due to build dimensions adequate height around stairs is not possible.
