The property is a small simple two bed 1930s bungalow with no special or period features.

The property does not have any heritage or historical significance.

The roof is the original tiles not been replaced since the property was build. The roof does not currently have any lining/insulation or felt as per the original build.

The property will remain a single story from the street, with a dormer added to the rear. The height of the building remains as a bungalow, lower than all neighbouring homes.

This will allow for the existing main bedroom (at front) to be moved upstairs, and the front bedroom becoming the 2nd bedroom allowing space for a wardrobe.

Internally the space to the rear of the house will be opened up to create an open plan dining, seating and kitchen area allowing space which is currently limited.

There are no highways considerations

There are no changes to access

There is no removal of any trees

Currently the front door can not be used effectively due to design/size, there is a proposed small porch to allow for a sealed/secure front door/entrance. There are no other changes to the existing footprint

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.
