Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission in Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

This proposal will need a change of use from Class C3 (dwelling house) to Class C2 (residential institutions). To change the residential house of 7 Wordsworth Way to a children's home, some internal modifications are needed to be made. The garage will be converted to create an office space for staff to work and for record keeping and there will be a new WC provision put in with a toilet and basin. Due to the amount of the people in the house at one time it was deemed necessary to have an extra. Toilet in the house downstairs. The open plan dining and living room will be separated to create two reception room spaces so that if the children want to be in separate spaces they can be without having to go to their rooms. The existing kitchen which is the original kitchen in the property will be changed and upgraded to be more functional and fitting for a family setting. On the first floor the existing bathroom will be upgraded to a new 4 piece bathroom suite and the adjoining WC with will have a basin installed in it. As well as modifications internally there will be statutory changes as well, a new rewire, new boiler and fire safety improvements to comply with the operations of a residential children's home.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- ☐ Yes
☒ No

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption:

Details of the pre-application advice received

The property is also a detached family home with 5 bedrooms and an internal garage. There is a driveway to the front and possibly the side that appears to be able to accommodate 2no vehicles. A number of changes are proposed internally, including the conversion of the garage. Other internal alterations are not development that require planning permission, but may require building regulations approval. I have therefore passed the details to my colleagues in building control to provide you with a view.

In relation to whether planning permission is required, my comments above are also applicable here.

In dealing with an application, the same tests are also relevant. Provision of vehicular parking within the curtilage is restricted to 2 vehicles at most. It is highly likely that on-street parking would result during the day, because between 3 and 4 adults will be present for significant periods of time. Parking is available on the road directly in front of the property. The road is relatively narrow and so when all adults are present, there will probably be some impact on the amenity of the residents, although only for a short time.

Within this context, and again on the basis of the information provided, it is likely that, on balance, an application would be viewed favourably.

General

If you are not aware, applicants for planning permission do not have to own the land or property to which the application relates. There is a requirement to serve notice on the owner prior to submission and make a declaration in this regard. For example, housebuilders will often agree to buy a site subject to planning permission being granted.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
